Notes:

- (a) The decrease in Associate and Joint Venture followed the recent divestment of the Company's 41.27% stake in DCL.
- (b) The increase in trade and other receivables resulted from the cash proceeds from the disposal of DCL which were not yet received as at 30 June 2020. The full S\$19.5m disposal proceeds has since been received as of 15 July 2020.
- (c) The increase in loans and borrowings was driven by higher utilisation of trade financing facilities (trust receipts) which corresponded with the increased plastic resins trading activity during the period.
- (d) The increase in trade and other payables was primarily due to the rise in purchase of plastic resins in our trading activities and rectification costs associated with certain projects within the Fire Protection Segment.
- (e) During the year, the Company's wholly-owned subsidiary, Intraco Trading Pte Ltd ("ITPL") undertook a capital reduction exercise (the "Capital Reduction") pursuant to Section 78B of the Companies Act, Chapter 50 of Singapore to return to the Company the surplus cash that is in excess of that required by ITPL for its operations by way of cash distribution of S\$10 million. Following the completion of the Capital Reduction, the issued and paid-up capital of ITPL was reduced from S\$12,000,002 to S\$2,000,002.

- 8 **Review of Performance**

**Revenue and cost of sales**

The Group's revenue increased by 6.4% from S\$57.9 million in H1 2019 to S\$61.7 million in H1 2020 driven by the increase in revenue from the Group's Trading and Other Segment which increased by 10.2% to S\$59.2 million in H1 2020. The plastic trading business saw stronger volume growth compared to the corresponding period.

Meanwhile, the Fire Protection Segment's revenue contribution decreased by 41.2% to S\$2.5 million in H1 2020 due to the temporary cessation of projects resulting from the COVID-19 outbreak.

Revenue contribution from the Trading and Other Segment made up 95.9% of the Group's revenue in H1 2020 with the balance coming from the Fire Protection Segment.

Cost of sales increased by S\$5.8 million or 10.9% to S\$59.4 million, largely in tandem with the increase in revenue from Trading and Other Segment. For the Fire Protection Segment, the cost of sales increased due to rectification costs on certain projects during the period.

**Gross profit**

Gross profit decreased by 48.5% from S\$4.3 million to S\$2.2 million in H1 2020, mainly due to a lower contribution from the Fire Protection Segment. Most of the construction projects in Singapore were temporarily halted as a result of the COVID-19 outbreak.

**Other income**

Other income comprised job support scheme payouts, grants and other co-funding from the Government in relation to the COVID-19 outbreak.

**Other expenses**

Other expenses in H1 2020 include S\$2.1 million loss which arose as a result of the divestment of the 41.27% stake in DCL. The Company had on 21 July 2020 obtained approval from its shareholders to ratify the divestment transaction. The DCL investment has generated a return on investment rate of approximately 128% for the Group as at 30 June 2020.

**Finance income**

Finance income relates to interest income derived from cash held in fixed deposits.

**Finance costs**

Finance costs decreased by approximately S\$132,000 or 57.4% to S\$98,000 mainly due to the reduction in average interest rates from 2.8% to 1.2%.

**Group (Loss)/ profit before tax**

The Group registered a loss before tax of S\$3.5 million in H1 2020 compared to a profit before tax of S\$0.1 million in H1 2019. The decrease in profits was mainly due to the recognition of a loss on disposal of DCL and operating losses arising from a challenging economic environment, especially within the Fire Protection Segment.

**Review of consolidated statement of cash flow**

Net cash outflow from operating activities for H1 2020 was mainly due to increase in trade receivables with longer credit terms.

Net cash inflow from financing activities for H1 2020 was mainly due to the increased use of trust receipts for the trading business.

- 9 **Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.**

The results are in line with the profit guidance announcement released by the Company to SGX-ST on 30 July 2020 .

**10 A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

Global economic uncertainties as a result of the impact of the COVID-19 outbreak have impacted the Group's operations, particularly the Fire Protection Segment due to the construction industry coming to a standstill. Many of the projects have been temporarily halted since April 2020 due to restrictive measures. Some activities are expected to recommence in August or September 2020 but the overall rate of recovery is expected to be much slower than initially anticipated. Changes in the way in which the business operates including availability of foreign workers, dormitory accommodation arrangements and need for work shifts are expected to have an impact on cost. Despite the challenging market conditions in which the businesses operate, the Group continues its focus on cost control, cash conservation and ensuring sustainability of its existing businesses. Management is also making a concerted effort to prepare and capitalise on any recovery expected in H2 2020 or 2021 and also to identify value investment opportunities that might arise from the COVID-19 pandemic.
