CURRENT BUSINESSES

CHAIRMAN'S STATEMENT

Dear Fellow Shareholders,

The global operating landscape throughout the financial year ended 31 December 2023 ("FY2023") was marked by persistent global challenges akin to those encountered in FY2022: geopolitical tensions, elevated interest rate level, and heightened inflationary pressures. Amidst these challenging circumstances, the year unfolded as a period of transition and measured optimism for Intraco.

FY2023 Financial Performance

Group revenue declined 17.8% from S\$192.9 million in FY2022 to S\$158.6 million in FY2023. On a segmental basis, revenue from our trading and distribution business contracted 17.1% due to pricing pressure and lower demand in Vietnam, partially offset by improved contribution from Indonesia and the rest of the region. Similarly, our passive fire protection business experienced a 40.8% decline in revenues primarily due to projects delays and fewer new projects secured.

Cost management remained a key focus as we diligently maintained control over our operating expenses. Capping senior management expenses, we were able to lower FY2023 administrative expenses to S\$8.9 million from S\$9.5 million in FY2022.

We provided for allowances for impairment loss on receivables and contract assets during the year. This included an aggregate S\$0.7 million allowance for an impairment loss on certain trade receivables and contract assets for our passive fire protection business; and an adjustment on receivables for the balance consideration receivable from Tat Hong Holdings Ltd.

We closed the year with a profit before tax of S\$3.5 million in FY2023 as compared with a loss of S\$1.3 million in FY2022. This was primarily due to a reversal of allowance of S\$3.8 million in FY2023 as we recognised expected recovery of certain trade receivables previously accounted for during FY2009 to FY2011.

To thank shareholders for their continued trust and support, the Board is proposing a final dividend of 0.5 Singapore cents per share to be approved at the upcoming Annual General Meeting. Our ability to deliver our first dividend in 13 years reflects the Board's cautious optimism of our performance going forward. Heading into FY2024, the Group remains well positioned with an improved balance sheet, supported by a healthy cash balance of S\$29.6 million and S\$16.0 million in investments.

Transforming for Scalability and Sustainable Returns

Our traditional trading and distribution, and passive fire protection businesses continue to experience pricing pressures and thinning margins in an increasingly competitive marketplace. While offering a degree of stability, we see a necessity to shift our business model towards one that is scalable and aligns with the enduring technological trends in today's world. Our three-year transformative roadmap seeks to realise this and as of 31 December 2023, we have reached the halfway mark of this strategic journey.

CHAIRMAN'S STATEMENT

In July 2022, we initiated a venture into asset securitisation via digital assets and tokenisation. This initiative has gained significant traction within the financial investment community, and enabled us to be recognised today as a lead arranger for commercial papers issued in digital token format on SDAX Exchange Pte. Ltd. ("SDAX") and other licenced tokenised digital exchange in Singapore. With the support of a small but experienced team, we have also successfully established a S\$50 million multicurrency unsecured commercial paper facility programme on SDAX.

Riding on this momentum, we made a strategic investment in SlideSG Pte Ltd ("SlideSG"), which will empower us to expand our participation in the fintech value chain, spanning from digital asset origination and tokenization to payments and fund transfer. This acquisition of SlideSG, which potentially sees us holding up to 50% of the company over three investment tranches, is in line with our goal to create more solutions for those in need of funding. As the conduit between liquidity providers and fundraisers, we hope to improve the efficiency of the funding process via the tokenisation market and the use of blockchain technology.

In FY2024, our main emphasis remains on execution and achieving the objectives outlined in the remainder of our three-year roadmap. In pursuit of this goal, we will persist in prioritizing the execution of our digital asset business, while also aiming to enhance the platform by increasing the volume of issues and expanding the pool of accredited investors.

Appreciation

Two of our long-serving directors will not be seeking re-election at the upcoming Annual General Meeting. Dr Tan Boon Wan will be stepping down from his position as Independent Director, and Chairman of both the Audit and Nominating Committees and a member of Nominating Committee at the conclusion of the Annual General meeting. Dr Steve Lai Mun Fook will also retire as Independent Director, Chairman of the Nominating Committee and a member of the Audit Committee on the same day. I would like to express our heartfelt appreciation to Dr Tan and Dr Lai for their invaluable contributions to the Board and wise counsel to the management team during their tenure of service.

I would also like to extend the Board's appreciation to our employees for their commitment and contributions in executing to our three-year roadmap. To our customers, partners, and shareholders, thank you for your continued trust and support.

Sincerely,

OPERATIONS AND FINANCIAL REVIEW

OPERATIONAL REVIEW

Intraco is primarily engaged in the trading and distribution of plastics resin and liquors, provision of passive fire protection products and services, as well as mobile radio infrastructure management services. Guided by the vision and strategic direction of our Board of Directors, we initiated a venture into corporate finance advisory on asset securitisation via digital assets and tokenisation in July 2022. We are today a lead arranger in Singapore for short term commercial papers issued in digital token format on Monetary Authority of Singapore approved private digital exchanges in Singapore.

In March 2023, we established a multicurrency unlisted, unsecured commercial paper facility programme for an aggregate amount of up to S\$50 million ("CP Programme"). Under the CP Programme, we issued our first Intraco SGD Commercial Paper Series 001, raising S\$4.1 million at a cost of 4.2% per annum, as well as a 1-month USD Commercial Paper, raising US\$4.0 million. In June 2023, we launched a S\$50 million multicurrency, unsecured and unsubordinated commercial paper facility programme (the "SDAX CP Facility Programme") on a recognised licenced digital platform in Singapore operated by SDAX Exchange Pte. Ltd. (the "SDAX").

In August 2023, we pioneered the first tokenised trade and supply chain transaction ("TradeTok") on SDAX. The TradeTok tokens are issued to accredited investors on SDAX and the proceeds raised are deployed to fund trade finance and supply chain assets. We issued our first TradeTok series on the back of strong demand from accredited investors, raising US\$2 million for both Series 001 Singapore-dollar

TradeTok and Series 001 US-dollar TradeTok tranches.

With this success, we launched the second series of commercial paper in digital securities under the SDAX CP Facility Programme in December 2023. The second series met with robust interest from accredited investors, enabling us to fully satisfy demand and secure a total of S\$1.45 million, surpassing our initial target by 45%.

In December 2023, we received our shareholders' approval to invest up to 50% equity interests in SlideSG Pte Ltd ("SlideSG") over three investment tranches. The first tranche of 19.9% was completed on 2 January 2024. Licenced and regulated by the Monetary Authority of Singapore, SlideSG holds six out of seven licenses to function as a major payment institution. SlideSG's technology and capabilities will enable us to broaden our trade services, including foreign exchange and remittance.

FINANCIAL REVIEW

Income Statement

Our Group revenue for FY2023 declined by 17.8% to S\$158.6 million from S\$192.9 million in FY2022 primarily due to the lower contribution from our trading and distribution business and provision of passive fire protection products and services.

Revenue from trading and distribution fell 17.1% to S\$148.7 million from S\$179.4 million in FY2022. This was mainly due to pricing pressure experienced across our markets along with lower demand in Vietnam, and partially offset by improved contribution

from Indonesia and the rest of the region. Revenue from our passive fire protection business segment saw a 40.8% contraction to S\$6.1 million in FY2023 from S\$10.3 million, primarily due to the delay of certain projects and fewer new projects secured. Revenue from our mobile radio infrastructure management and corporate advisory services rose 15.6% to S\$3.7 million, from S\$3.2 million in FY2022.

Gross profit decreased by 4.7% to S\$8.2 million in FY2023 from S\$8.6 million in FY2022, as a result of lower margins generated by our passive fire protection and trading and distribution businesses in a highly competitive market.

Other income declined S\$0.7 million in FY2023 from FY2022 after accounting for a gain on disposal of joint venture of approximately S\$0.4 million recorded in FY2022, a gain from the sale of burgundy wine tokens to accredited investors of S\$0.1 million in FY2022 and higher government grants of approximately S\$0.3 million received in FY2022. In FY2023, we recorded a foreign exchange gain of S\$0.1 million.

We incurred lower administrative expenses of S\$8.9 million, compared to S\$9.5 million in FY2022. This is credited to the cost management initiatives implemented since the second half of FY2022.

Other expenses saw a year-on-year decline of S\$1.0 million to S\$0.2 million, mainly due to the fair value loss incurred on financial assets of S\$0.8 million in FY2022. There was a reversal of allowance of S\$3.8 million in FY2023 as we recognised expected recovery of certain trade receivables which were previously provided for in the financial years ended 31 December 2009 to 31 December 2011¹.

¹ Please refer to the announcement made by the Company on 25 September 2023 and 27 October 2023 for more details. The net amount of S\$3.8 million was estimated assuming after any payments of tax by the liquidator

OPERATIONS AND FINANCIAL REVIEW

Allowance for impairment loss on receivables and contract asset included an impairment loss on certain trade receivables and contract assets amounting to S\$0.6 million from the passive fire protection products and services business; and an adjustment on receivables for the balance consideration receivable from Tat Hong Holdings Ltd amounting to S\$0.2 million in FY2023 due to the weakening of the currency of Myanmar against the US dollar.

Finance income increased by S\$0.9 million to S\$1.6 million, mainly due to better yield from fixed deposits and investments in short term securities compared with FY2022. On the other hand, finance costs increased by S\$0.2 million to S\$0.5 million as a result of higher interest expenses incurred for borrowings to fund working capital requirements for our trading and distribution business.

Taking the above into account, we recorded profit before tax of S\$3.5 million in FY2023 as compared to a loss of S\$1.3 million in FY2022.

Financial Position

We closed the period with a healthy cash balance of S\$29.6 million and S\$16.0 million in investments as at 31 December 2023. Total net asset value was S\$61.8 million, which translates to a net asset value per share of S\$0.55. Net cash per share as at 31 December 2023 was S\$0.38.

The decrease in property, plant and equipment to S\$9.9 million,

from S\$11.2 million in FY2022 was mainly due to depreciation expense amounting to S\$1.9 million, offset against additions of property, plant and equipment of S\$0.6 million that mainly resulted from the increase in right-of-use related to office unit of S\$0.5 million.

Long-term investments declined to S\$3.0 million, from S\$4.6 million in FY2022, due to a reclassification of the S\$2.1 million investment in long-term bonds to current assets. During the year, an additional S\$0.4 million was invested in the financial assets at Fair Value Through Profit and Loss ("FVTPL"). Short-term investments declined to S\$13.0 million, from S\$19.9 million in FY2022, mainly due to lower investments in short-term securities and higher fixed deposits.

The decrease in trade and other receivables to S\$19.9 million, from S\$22.5 million in FY2022 was mainly due to prompt receipt from the customers as of financial year ended 31 December 2023.

Cash and bank balances rose S\$11.8 million to S\$29.6 million mainly due to higher fixed deposits and lower trade and other receivables for the reasons above.

The significant decrease of the loans and borrowings to S\$2.9 million, from S\$9.8 million in FY2022 was mainly due to the decrease in the utilisation of trust receipts of S\$5.9 million and repayment of unsecured bank loan of S\$2.1 million in FY2023. In FY2023, the Group issued short term commercial papers worth S\$1.45 million to fund the Group's

working capital requirements for its trading and distribution business in lieu of bank borrowings. The Group also fully settled its secured bank loans of approximately S\$0.6 million on 8 May 2023.

The increase in trade and other payables to S\$12.8 million, from S\$10.7 million in FY2022 was primarily due to the increased purchases by our plastic resin trading business towards the end of the year.

Cash Flow

Cash flow from operating activities of S\$9.6 million was mainly due to the increase in trade and other receivables of S\$5.9 million. This was largely attributed to the reversal of the aggregate S\$3.8 million provision for impairment loss made between FY2009 and FY2011 on trade receivables. There was also a decline in trade and other payables of S\$2.2 million.

Cash flow from investing activities of S\$10.0 million was primarily due to redemption of short-term securities. In FY2023, we allocated a significant part of our cash to fixed deposits instead of short-term securities such as commercial papers. This accounted for a decline in short-term securities of S\$8.8 million over the period.

Cash flow used in financing activities of S\$7.8 million was due mainly to the settlement of trust receipts of S\$5.8 million and net repayment of loans and borrowings of approximately S\$1.3 million.

FOCUS 1: GOVERNANCE AND ETHICS

Strong corporate governance practices are integral in enhancing the Group's adaptability to policy changes and trends in the industry as well as helping the Group align its operations and business activities with the interests of all key stakeholders.

The SC is responsible for reviewing and making recommendations to the Board on sustainability matters including policies, practices, targets and performance. It identifies various business risks, implements strategies and sustainability frameworks, tracks the performance of the material ESG factors, and reviews the sustainability reports. The SC consists of the Chief Operating Officer, Group Financial Controller and representatives of other business unit, and is chaired by the Group Senior Human Resource Manager.

The SC is supported by the Sustainability Task Force ("STF") which consists of executives of the Group who work with personnel of the relevant business units. The STF is responsible for the implementation of sustainability initiatives within their business units.

FOCUS 4: ENVIRONMENTAL RESPONSIBILITY

As an environmentally conscious and responsible business, we recognise that we have a part to play in combating climate change. Intraco ensures that any adverse environmental impacts are well managed and resource efficiency is explored as an area that can enhance operational efficiency.

Energy Management

Disclosures 302-1, 302-3, 302-4

The Group’s main environmental impact stems from fuel consumption for vehicles and production, as well as electricity consumption for lighting, air-conditioning and operating machinery such as air compressors and burners. As a testament to the continual improvement of our environmental practices, K.A. Group is ISO 14001:2015 Environmental Management System certified.

The Group recognises that good environmental practices will result in operational efficiencies. Improved energy efficiency will translate into lower operational costs and a reduced impact on the environment. We have also engaged a greener power supply vendor to manage our carbon footprint. Energy consumption is continuously tracked to identify potential areas for energy efficiency improvement.

The Group continues to increase employees’ awareness on energy reduction, and implement the following energy conservation practices:

- Switching off all lights and electronic equipment when not in use, including after office hours and during weekends;
- Enabling energy-saving features on all electronic equipment where available;
- Reminding employees to set their computers to sleep mode after 10 minutes of inactivity;
- Ensuring that external doors and windows are properly closed to prevent cool air from escaping;
- Encouraging telephone calls and video conferences to replace unnecessary travels;
- Maximising the use of natural lighting wherever possible;

- Maintaining equipment regularly to ensure optimal performance and energy efficiency.

Whenever possible, energy efficient facilities such as air-conditioners that are certified under the Mandatory Energy Labelling Scheme (“MELS”) or equivalent COP (“Certificate of Performance”), and are installed with occupancy sensors and Light Emitting Diode (“LED”) lighting.

SUSTAINABILITY REPORT

The Group's total energy consumption in FY2023 is presented in the following table. Going forward, the Group will continue to monitor energy consumption as well as identify initiatives to reduce electricity consumption across its operations.

Energy Consumption	Targets	2023	2022
Total energy consumption	MWh	601.76	797.49
Energy consumption intensity	MWh per employee	6.02	6.13

Note:

In FY2022, the amount of goods produced by the Group was used as the metric for calculating intensity data. Due to the inclusion of service-based businesses, Taurus and Provenance, the Group considers that the amount of goods produced is no longer an applicable metric for its diversified businesses. The metric for calculating intensity data is therefore changed to total number of employees. The total number of employees in FY2023 was 100 (FY2022: 130). The FY2022 intensity data is therefore restated from 17.33MWh per 1,000 m² of goods produced to 6.13 per employee. The total number of employees for FY2023 is also used as the metric for calculating other intensity data.

Water and Effluents Management

Disclosures 303-5

The Group strives to consume water wisely and responsibly. The major water use is domestic use in the office buildings. The Group aims to cultivate a water-saving habits among all levels of its staff to achieve sustainable development. In FY2023, water withdrawal of the Group totalled 4,382.4 cubic meters, water withdrawal intensity amounted to 43.82 cubic meters per employee. Due to the business nature, the amount of water withdrawal is approximate to the amount of water discharge. No water was consumed from water stress areas. The Group has set a target to maintain or reduce the Group's total water consumption intensity in FY2024, using FY2022 as the base year for comparison.

Emissions

Disclosures 305-1, 305-2, 305-4

The Group's greenhouse gas ("GHG") emissions mainly consist of direct (Scope 1) GHG emissions and energy indirect (Scope 2) GHG emissions. The Group's GHG emissions were mainly attributable to the consumption of purchased electricity. The GHG emissions data is presented

in terms of tonnes of carbon dioxide equivalent ("tCO₂e").

In FY2023, the Group's total GHG emissions 1 were approximately 213.97 tCO₂e, which consists of approximately 176.81 tCO₂e of direct (Scope 1) GHG emissions and approximately 37.16 tCO₂e of energy indirect (Scope 2) GHG emissions. In FY2022, the Group's total GHG emissions intensity was approximately 4.65 tCO₂e per 1,000 m² of goods produced.

Energy Consumption	Targets	2023	2022
Direct GHG emissions (Scope 1)	tCO ₂ e	136.25	176.81
Indirect GHG emissions (Scope 2)	tCO ₂ e	29.18	37.16
Total GHG emissions (Scope 1&2)	tCO ₂ e	165.43	213.97

Note:

1. GHG emissions data are calculated based on, including but not limited to, "The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standards" issued by the World Resources Institute and the World Business Council for Sustainable Development, "Global Warming Potential Values" from the IPCC Fifth Assessment Report and the 2021 grid emission factor published by the Energy Market Authority of Singapore.
2. As aforementioned, the metric for calculating intensity data is changed from amount of goods produced to total number of employees. The FY2022 GHG emission intensity data is therefore restated from 4.65 tCO₂e per 1,000 m² of goods produced to 1.65 per employee.

Responding Actions to Climate Change

The Group recognises the importance of developing a strategy and risk management framework that can help enhance the Group's climate resilience. The TCFD provides recommendations regarding disclosure of climate-related financial information. The TCFD recommends disclosures across four pillars, including governance, strategy, risk management and metrics and targets, to assess the impact of key climate-related risks and opportunities. We have included disclosure on these four pillars as below:

SUSTAINABILITY REPORT

Governance

The Board has an oversight on the Group’s sustainability strategy. The Board approves the Report which provides comprehensive disclosures, including disclosures on the Group’s climate-related risks and opportunities and its responding actions to enhance climate resilience.

The SC reports to the Board on climate-related matters and is responsible for developing metrics and targets so as to manage sustainability objectives and monitor the overall sustainability performance. In addition, the SC drives the implementation of the sustainability initiatives within the Group and advises the Board on the material sustainability matters.

Strategy

We have strengthened our understanding of risk, including physical risks and transition risks, and opportunities affecting our business. After the identification of climate-related risks and opportunities over the short, medium and long term, we have developed corresponding action plans to manage these risks and opportunities.

Physical Risks

Climate change may result in extreme weather events such as heavy rainfalls, heat waves and droughts. These events may affect the Group’s business in varying degrees. The Group has flexible work arrangements in place and will design contingency plans to manage any sudden disruption of operations.

Transition Risks

Climate change may result in transition risks to the Group. The Group may face more stringent laws and regulations on environmental protection, carbon emission, and waste generation in the future. It may lead to increased risks of non-compliance with the requirements of green standards.

With an increased awareness of climate change, our stakeholders are likely to demand products and services that are environmentally friendly. As a result, the transition to a low-carbon business model can bring opportunities. With the adoption of environmentally friendly practices in the Group’s operations, the Group may be able to convert more business opportunities from customers who appreciate the Group’s environmental initiatives, such as integrating different product materials to ensure better overall utilisation rates.

Risk Management

The SC was established to drive the Group’s sustainability performance, develop sustainability strategy, and manage climate risks. We will continue to review our climate risks and carry out the corresponding actions to manage them. For the identified physical and transition risks, we will undertake precautionary measures for all employees and workers during extreme weather and develop operation

continuity plans. The use of energy-efficient equipment and systems will be promoted. We will also monitor any changes in legal requirement or green standards to ensure compliance with laws and regulations at all times.

Metrics and Targets

We have measured and disclosed our Scope 1 and Scope 2 GHG emissions in this Report. GHG emissions data are calculated based on widely recognised standards. In FY2023, we set a target of maintaining or reducing the Group’s total GHG emission intensity using FY2022 as the base year for comparison.

Waste and Effluents Management

Disclosures 306-1

The Group adopts good corporate practices for waste management. Our practices are reviewed and improved regularly as an integral part of our environmental management system. We realize that the waste and effluents discharged by our Group may have an impact on the environment, therefore 100% of our chemical waste and general waste is subcontracted to a certified waste disposal company. We perform assessment on our waste operators and prefer them to have robust environmentally friendly practices with regard to their waste disposal methods.

FOCUS 5: PRODUCT RESPONSIBILITY

Product responsibility entails the obligations and accountability that we have toward our customers and the broader society. We strive to ensure that our products are safe, reliable, and meet all applicable quality standards. Any product defects or safety issues will be addressed promptly. We also consider the environmental and social impacts of our products throughout the product lifecycle, and monitor our supply chains to ensure ethical practices of our suppliers.

Customer Health and Safety

Disclosures 416-1, 416-2

The Group upholds the highest standards on safeguarding customer health and safety. Our production process includes rigorous testing and compliance with regulations. We also exercise duty of care in enforcing protocols and in preventing any lapses in health and safety protection compliance. All of our major products and services are constantly assessed for improvement. There were no incidents of non-compliance with regulations or voluntary codes concerning health and safety impacts of our products and services that resulted in a fine, penalty, or warning during FY2023 (FY2022: Nil).

K.A. Group

K.A. Group views safety as a critical component of its business. In compliance with relevant industry-specific health and safety regulations, K.A. Group conducts regular quality control inspections on its products and services. It closely monitors the performance of its fire protection applications to ensure their effectiveness and adherence to local building regulations.

For example, the Insulated Fire rated Fabric Shutters or Fire Curtain is tested to Singapore Standard Specification for Fire Shutters SS 489:2001 for its compliance with the local building regulation for up to 4 hours for fire integrity and 2 hours for insulation. For cases that are brought up to K.A. Group, they will be filed in the incident reporting system for evaluation and risk assessment.

Furthermore, K.A. Group maintains its certification for important standards. Its production and storage of fireproofing materials is certified for ISO 14001:2015 by SOCOTEC Certification Singapore (formerly known as Certification International Singapore) for the scope of supply and installation of fireproofing system in building and construction.

ITPL

ITPL aims to provide high quality plastic resin products to its customers. It performs regular quality control inspections on its products and services through the use of Certificate of Analysis ("COA"). ITPL ensures that all suppliers are evaluated and assessed, and warrants the matching of product specifications with the COA, which accompanies each batch of products manufactured.

Material safety data sheets are also available from suppliers on demand. Besides the COA, ITPL is able to provide additional certifications and standards to meet the specific needs of its customers on demand such as the following:

- Restriction of Hazardous Substances ("RoHS") Standards;
- Registration, Evaluation, Authorisation and Restriction of Chemicals ("REACH"); and
- United States Food and Drug Administration ("FDA").

As the safety of plastic products is one of the main concerns of the industry, ITPL strives to go beyond standards and regulatory requirements. ITPL educates its customers on the proper use of products as well as potential risks and the precautions that they should undertake to minimise potential incidents. This is achieved through training and demonstrations carried out jointly with the manufacturers. To investigate

SUSTAINABILITY REPORT

identified issues and make constant improvements, ITPL communicates with the customers to obtain feedback on health and safety related issues.

Intrawave

As part of the telecommunication sector, Intrawave recognises that its core business requires the implementation of strict safety protocols. It has attained BizSafe Level 3 since May 2022, Intrawave is committed to safe operations by ensuring that its employees attend safety courses before they commence any work. Risks and possible hazards are therefore identified and evaluated, and safety precautions are put in place before the commencement of any projects. Intrawave also adheres to its hierarchy of controls and housekeeping rules to minimise installation related hazards when performing work.

Taurus and Provenance

As Taurus is engaged in the provision of corporate finance advisory services and Provenance is engaged in wholesale of wines, customer health and safety are not considered significant to these two businesses. The Group will continue to be aware of any health and safety issues when they arise.

Supply Chain Management

Disclosures 308-1, 308-2, 414-1, 414-2

Developing strong supplier relationships will ensure quality consistency and continuity of operations. Our suppliers include building maintenance material providers, contractors and suppliers for soft and hard services, as well as downstream services such as waste management and professional support services. We engage with our contractors on site regularly, with an emphasis on health and safety issues.

We adopt a risk-based approach to ensure that our supply chain is sustainable and reliable. Supply chain risk assessments are regularly carried out to evaluate the quality and regulatory compliance of our suppliers. In FY 2023, 100% of the 18 new major suppliers were screened using environmental and social criteria. No supplier was identified as having significant actual and potential negative environmental impacts nor were there any significant actual and potential negative environmental impacts being identified.

K.A. Group

K.A. Group ensures that proper documentation and authorisation processes for supplier engagement are

completed to mitigate any potential risks. Details of all existing suppliers are filed in a master list and approvals of major new suppliers are required. K.A. Group monitors the quality of its products by conducting random checks on the direct materials upon arrival and all material suppliers are screened.

ITPL

As a trading company, it is imperative that ITPL maintains the quality of its products. In FY2023, ITPL performed supplier assessments on major new suppliers as part of a comprehensive approach to manage sustainability impacts outside our organisation and along our supply chain. We evaluated suppliers based on pertinent environmental and social aspects, including suppliers waste management and workplace health and safety practices.

In line with the Group's practice, ITPL ensures that all its suppliers are COA compliant. It also adheres to the procurement practice that it will only procure from suppliers who are certified petrochemical producers. Such practice will be enforced and reviewed annually.

Taurus and Provenance

Taurus and Provenance do not have any major suppliers. Supply chain management is not considered significant to these two businesses. The Group will continue to be aware of any supply chain management issues when they arise.

Our office is equipped with first aid boxes to prepare for any emergency situations. Where applicable, we will provide workplace injury compensation for work accidents that occurred at the workplace according to local regulations. Moreover, all employees, whether full-time or part-time, are entitled to health care coverage by the Group, including Workmen Compensation, Hospitalisation Insurance, Group Personal Accident Insurance, Travel Insurance and Group Term Life Insurance.

In FY2023, the Group did not record any work-related injury, and therefore no lost days due to work-related injury. For the safety of employees, the Group will strive to minimise the potential occurrence of work-related injuries.

FOCUS 6: HUMAN CAPITAL

Occupational Health and Safety

Disclosures 403-1, 403-2, 403-3, 403-4, 403-5, 403-6, 403-7, 403-8, 403-9

We place a high priority on employee well-being and safety. We operate with strict adherence to relevant local regulations. Our goal is to ensure that we can continue to operate in a safe working environment through the implementation of safe management measures. These are guided by the advisories from the Ministry of Health (“MOH”), Ministry of Manpower (“MOM”) and BCA.

A comprehensive Safe Management Plan was also created with an aim to enhance safety and identify and manage any health risks that may arise. It includes the following:

- Applying a monitoring plan for safety management measures at the workplace;
- Having two certified safety management officers;
- Appointing a safety distancing officer;
- Adopting a stringent approach to employee safety and health;
- Taking temperatures for employees;
- Placing hand sanitisers at high touch points;
- Communicating with employees on the development, implementation, and evaluation of the Safe Management Plan;
- Applying special arrangements (e.g. split teams) to limit the number of employees at the workplace at any time where possible; and
- Using of digital tools such as teleconferencing, where possible, to conduct daily business activities online.

K.A. Group

K.A. Group advocates safety consciousness and instils a zero-tolerance attitude towards safety accidents using channels such as regular briefings, safety posters and daily checks on safety and personal equipment. It has adopted a Quality, Operational Health and Safety and Environmental (“QOHSE”) policy that outlines the compliance for local health and safety requirements. QOHSE specifies the responsibilities of supervisors and site workers to ensure workplace safety at every level. In addition, a 2-day mandatory Workplace Safety Orientation government course is provided prior to commencement of any project.

K.A. Group continues to be certified for its safety efforts as stipulated below:

- ISO 45001:2018 Occupational Health and Safety Management Systems for the scope of supply and installation of fireproofing system to building and construction, production and storage of fireproofing materials by Certification International Singapore for K.A. Fireproofing Pte Ltd’s occupational safety and health management system;
- bizSAFE Level Star Certificate by the Workplace Safety and Health Council; and
- Compliance with BCA CRS requirement for Fire Prevention and Protection Systems.

SUSTAINABILITY REPORT

K.A. Group has achieved zero breaches of governmental rules and regulations regarding occupational health and safety and have no resulting closures of facilities due to noncompliance. K.A. Group works closely with the local authorities in Singapore, complied with all relevant health and safety regulations, and rendered the help necessary to support the mental and physical well-being of its foreign construction workers.

The Group's safe management officers will continue to actively monitor the implementation of safety management measures as stipulated by the MOM and BCA.

Intrawave

Intrawave specialises in designing and building of radio coverage infrastructure for telecommunication operators and is committed to the highest standards of safety. It complies with all local health and safety requirements and sub-contractors are engaged to do periodic maintenance of equipment.

At the same time, employees, sub-contractors and customers are provided with health and safety training courses to enhance their understanding of workplace safety issues and procedures.

Due to the nature of its work with Singapore's North East MRT line ("NEL"), the Group's employees working on NEL are required to pass training courses conducted by SBS Transit ("SBST"), the operator of NEL, or training refresher courses conducted once every three years. SBST's approval on risks identification, assessment and control of any health and safety risk is also required before commencement of work on NEL.

To enhance compliance with these regulatory requirements and encourage long-term integrity from stakeholders, the Group has assigned its own Engineering person in-charge and Track Protection Officer qualified by SBST to take charge of safety and efficient execution of engineering works in the NEL premises.

ITPL

Although ITPL's business scope is mainly commercial in nature, which does not require onsite work, it adopts a precautionary approach by ensuring health and safety risks are minimised in its business functions. For example, ITPL provides driver services for its sales staff in Vietnam and Indonesia to reduce fatigue for long distance driving. In 2023, a new car was procured to replace the old to ensure road and personal safety. ITPL has upgraded the office furniture and equipment by replacing computer screens with visual friendly LED monitors and purchasing ergonomically designed chairs for all employees.

Taurus and Provenance

Due to the business nature, all employees of Taurus and Provenance are office staff. The Group applies the same Safe Management Plan as described in this section to ensure the health and safety of its office employees.

The recruitment of potential candidates is based on merit regardless of age, gender, religion, marital status or ethnicity. This is in line with the Tripartite Guidelines on Fair Employment Practices. The Group treats all employees fairly and provides them with equal opportunity to be considered for training and development based on their strengths and needs.

Positive Workplace Environment

Disclosures 404-3

A conducive working atmosphere is vital for the Group to thrive in the post-pandemic world and instil a sense

of belonging. The Board and management achieves this by promoting open discussions with the employees to understand and address their needs and concerns.

To promote social cohesiveness, regular staff engagement activities, such as virtual team meetings and one-on-one conversations were organised to keep employees informed on the latest updates, align goals and continuously establish ways to improve the organisation.

The Board and Executive Chairman are focused on aligning performance with incentives and setting clear key performance indicators and growth targets for employees. We closely track data such as employee turnover, number of training days to better grasp employee morale and evaluate policies. As a continuous effort, the human resources department also conducts exit interviews for all voluntary resignees. Furthermore, the Group conducts employee performance appraisals and obtains regular feedback on employee experience.

Community Giving

Disclosure 413-1

The Group believes in giving back to society and actively promotes community engagement. In November 2023, we participated in Let's Take A Walk, a non-profit endurance walking event organised by Raleigh Singapore to raise funds for Ray of Hope. In this meaningful event, our employees took the elderly out for a pleasant walk.

In October 2023, the Group received the ISCC Plus Certificate, which is an International Sustainability and Carbon Certification involving a voluntary scheme that is applicable for the bioeconomy and circular economy for food, feed, chemicals, plastics, packaging, textiles and renewable feedstock derived from a process using renewable energy sources.

During FY2023, all of the Group's operations implemented local community engagement. For instance, we have made public disclosure of our results of environmental and social impact assessments in our Report, participated in local community development programs based on local communities' needs, and engaged our stakeholders via our stakeholder assessment survey.

CORPORATE STRUCTURE

CORPORATE GOVERNANCE REPORT

INTRODUCTION

Intraco Limited (the “Company” and together with its subsidiaries, the “Group”) is committed to ensuring and maintaining a high standard of corporate governance. It understands that it not only has to be legally compliant and socially responsible but also to deliver performance and manage shareholders’ and other stakeholder’s expectations.

The focus has been on continuing to engage and provide oversight of Management’s actions and strategic directions with the Board of Directors of the Company (the “Board”). Such Board oversights of the Company are facilitated through regular Board Committees’ meetings and guiding Management in improving internal processes, instilling business values and beliefs with the support of the Board and respective Board Committees. The Board is committed to adopting the best practices in ensuring the spirit of Corporate Governance while carrying out its duties and responsibilities under the framework and rules of Board’s operating processes, policies and guidelines.

In keeping with its commitment to a high standard of corporate governance, the Board and Management endeavour to align the Company’s governance framework with the principles and provisions of the Code of Corporate Governance 2018 (the “Code”).

This report describes the corporate governance framework and practices of the Company with specific reference to each principle as set out in the Code. For the financial year ended 31 December 2023 (“FY2023”), the Board is pleased to report that the Company has complied in all material aspects with the Code. Where there are deviations from any of the guidelines of the Code, explanations as to how the Company’s practices were consistent with the intent of the Principle in question are provided in this report. The Company reviews its practices on ongoing basis, as and when required.

BOARD MATTERS

THE BOARD’S CONDUCT OF AFFAIRS

PRINCIPLE 1: *The company is headed by an effective Board which is collectively responsible and works with Management for the long-term success of the company.*

Apart from its statutory responsibilities, the Board also:

1. provides entrepreneurial leadership and guidance on the overall strategic direction, oversees the proper conduct of the business, performance and affairs of the Group and ensures that the necessary financial, human and operational resources are in place for the Group to meet its objectives;

15. succession planning for the Board and KMP; and
16. reviews recommendations by the AC for any whistle-blowing investigations on practices and infractions of company policies, processes and procedures, staffing and personnel matters, and commercial and legal compliance matters.

In discharging the Directors' fiduciary duties, all Directors are expected to exercise due diligence and independent judgement and make decisions objectively in the best interest of the Company. A Director who is interested in a transaction or proposed transaction is required to declare if he/she has a conflict or potential conflict of interest and recuse himself/herself from deliberation and decisions involving the areas of potential conflict.

For the purposes of Section 156 of the Companies Act, each Director has given notice to the Company of the entities in which he/she is an officer or member of, and which should be regarded as being interested in any transaction between the Group and such entity. The Directors will periodically update the notice wherever there is any change in his/her directorships.

CORPORATE GOVERNANCE REPORT

The Company has established internal policies and procedures on the types of transactions/activities and financial authorisation limits that require Board approval. These include approval of annual budgets, financial statements, business strategies, and material transactions such as acquisitions, divestments, funding and investment proposals, all commitments to term loans and lines of credit from banks and financial institutions. Below the Board level, there is appropriate delegation of authority and approval sub-limits at management level, to facilitate operational efficiency.

CODE OF BUSINESS CONDUCT AND ETHICS

The Board has put in place a Code of Business Conduct and Ethics to guide the Directors on the areas of ethical risk, and help nurture an environment where integrity and accountability are key.

The Group's Code of Business Conduct and Ethics includes the following key principles:

1. Directors must avoid situations in which their own personal or business interests directly or indirectly conflict, or appear to conflict, with the interests of the Group;
2. Directors must immediately declare conflicts of interest in relation to any matter and recuse themselves from participating in any discussion and/or decision on the matter, and are expected to take necessary mitigating steps (if appropriate) to avoid the conflict;
3. Directors should inform the Secretary in writing as soon as practicable upon any appointments to the board of directors of another public or private company or principal commitments;
4. Directors are to exercise due care and maintain the confidentiality of information entrusted to them by the Company or other parties who have business dealings with the Group;
5. Directors must carry out their responsibilities in compliance with the Company's guidelines and policies, and applicable laws, rules and regulations; and
6. Directors must not trade in the securities of the Company if, at the relevant time, they are in possession of non-public materially price-sensitive or trade-sensitive information.

Provision 1.2 – Disclosure on Directors' discharge of duties and responsibilities

All Directors exercise due diligence and independent judgement in dealing with the business affairs of the Group and are obliged to act in good faith and to take objective decisions in the interest of the Group.

Role of Non-Executive Directors

The Non-Executive Directors exercise objective judgement on the Group's affairs independently from Management. The Non-Executive Directors also contribute to the Board process by (monitoring and) reviewing Management's performance against goals and objectives. Their views and opinions provide alternate perspectives to the Group's business. When challenging Management's proposals or decisions, they bring independent judgement to bear on business activities and transactions involving conflicts of interest and other complexities. The challenge is conducted in a constructive and professional atmosphere to evaluate the business options and other risks associated with it adding fresh dimensions to Management's strategy for the best outcome.

CORPORATE GOVERNANCE REPORT

Meetings without Management

The Non-Executive Directors and/or Independent Directors also meet regularly during scheduled and ad-hoc meetings where required without presence of Management to facilitate more open discussions. In furtherance to such meetings, casual discussions were also carried out as and when the need arises to enable the Non-Executive Directors and/or Independent Directors to discuss underlying issues of the Group. All Non-Executive Directors are resident in Singapore.

Directors to receive appropriate and relevant training

All newly-appointed Directors attend an orientation programme to familiarise themselves with the Group's business, operations and governance practices and they are also given materials containing such information. A formal letter of appointment is also provided to any newly appointed Director, setting out his/her duties and responsibilities.

The Group's policies and procedures are also given to the Directors to enable them to gain a clear understanding on the levels of authority in relation to transactions. In addition, Directors are provided with the contact numbers and email addresses of fellow Directors, key executives, the Company Secretary and Auditors to facilitate efficient and direct access.

The Board is kept up-to-date from time to time on pertinent business developments in the Group's business, including key changes in relevant legislation and regulatory requirements, financial reporting standards, risk management, corporate governance, sustainability issues and industry specific knowledge so as to enable them to properly discharge their responsibilities as Board members or Board committee members. Directors and Management also attend courses to keep abreast of changes in the law and governance matters that may affect the Group.

The Board values ongoing professional development and recognises that it is important that all Directors receive regular training so as to be able to serve effectively on, and contribute to the Board. The Company has a budget for Directors to receive further relevant training of their choice in connection with their duties as Directors.

As part of the Board continuing professional development, the Directors had received more than 24 training hours in aggregate through attending various training seminars, courses, conferences and workshops during the year. The Company maintains a register of training to keep track of the training and development hours spent by Directors. The Company is a corporate member of the Singapore Institute of Directors ("SID").

During the year, the Directors attended professional development programmes organised by SID in collaboration with ACRA and SGX as follows:

- 2023 Kevin Mitnick Security Awareness Training (Initial Security Awareness Training)
- Cyber Risk and Resilience in the Digital Age – SID
- SID Directors conference 2023

In addition, all the Board members have completed the mandated sustainability training courses as required by the enhanced sustainability reporting rules in FY2022.

Further, articles, press releases, reports issued by SGX and ACRA which are relevant to the Group's business and compliance obligation are circulated to the Board. The external auditors, BDO LLP, routinely update the AC on new and revised financial reporting standards applicable to the Company.

CORPORATE GOVERNANCE REPORT

Provision 1.3 – Board Approval

The Company has established internal policies and procedures on the types of transactions/activities and financial authorisation limits that require Board approval. These include approval of annual budgets, financial statements, business strategies, and material transactions, such as acquisitions, divestments, funding and investment proposals, all commitments to term loans and lines of credit from banks and financial institutions. Below the Board level, there is appropriate delegation of authority and approval sub-limits at management level, to facilitate operational efficiency.

Provision 1.4 – Delegation of Authority by the Board to Board Committees

To assist in the execution of its responsibilities, the Board had established three (3) Board Committees, namely the Audit Committee (“AC”), Nominating Committee (“NC”), and Remuneration Committee (“RC”), and delegated specific areas of responsibilities to these Board Committees. Each of these Board Committees functions within clearly written terms of reference (“TOR”), which have been approved by the Board.

The composition of the three (3) Board Committees is as follows:

Directors	AC	NC	RC
Mr Mak Lye Mun (Chairman)	-	-	-
Dr Tan Boon Wan	Chairman	Member	Chairman
Dr Steve Lai Mun Fook	Member	Chairman	-
Ms Ong Beng Hong	-	Member	Member
Mr Charlie Ng How Kiat	Member	-	Member

The Board Committees have the authority to deliberate any issue that arises in their specific areas of responsibilities within their respective TOR and report to the Board with their decisions and/or recommendations. The ultimate responsibility and authority for the decisions and actions on all matters rest with the Board.

Besides the Board Committees, there are separate sub-committees at Management level to assist the AC and the Board. The below sub-committees were established and each sub-committee is guided by their respective TOR.

Group Management Committee (“GMC”)

The GMC comprising senior management of the Group’s business units is headed by Mr Mak, the Executive Chairman and Director. The GMC reports directly to the Board.

Under the GMC’s TOR, the GMC is to provide oversight over the business activities of the Group through:

- Developing and implementing business strategies, financial and operational plans, forecasts and budgets, policies and procedures;
- Driving and monitoring the businesses, operating and financial performance;
- Risks management and internal controls; and
- Prioritizing and allocating resources.

CORPORATE GOVERNANCE REPORT

Group Risk Committee (“GRC”)

The GRC comprises mainly senior management of the Group’s Business Units, reports directly to the AC.

The GRC focuses on identifying, monitoring, tracking and providing guidance on material risks of the Group. This allows for a more structured approach in the Group’s Enterprise Wide Risk Management where the GRC will act as a dedicated committee to have visibility across the entire Group’s material risk activities.

Under the GRC’s TOR, the GRC is to provide oversight under delegated authority of the AC the expected material risks of the Group through:

- Driving and setting of the Group’s risk policy direction and framework via the Group’s Material Risk Policy (“MRP”)
- Identifying and prioritising measurable key material risk metrics to be periodically monitored and reviewed.
- Approving (subject to approval of respective entity’s Board) Material Limits and delegated authority to business units and/or employees of the Group.
- Ordering of investigation or unscheduled audit review on serious lapses and breaches and appointment of ad-hoc disciplinary committee and decide on its recommendation.

Provision 1.5, 1.6 & 1.7 – Board Processes

The Board and Board Committees meet regularly and whenever necessary to discharge their duties. When required, the Board also sets aside time at the scheduled meetings to meet without the presence of Management. The annual schedules of Board and Board Committee meeting dates are scheduled in advance each year in consultation with the Directors to assist them in planning their attendance.

Ad-hoc meetings are convened when required to address any significant issues that may arise in-between scheduled meetings. Where physical meetings are not possible, timely communication is achieved through electronic means and circulation of written resolutions for approval. The Company’s Constitution (“Constitution”) provides that the Directors may conduct meetings by means of telephone or video conference or other methods of simultaneous communication.

All draft agendas for meetings are prepared by the Company Secretary and reviewed by the Chairman of the Board or the Chairman of the respective Board Committees. Papers and/or other information are forwarded to the Directors at least a week in advance of each meeting, enabling sufficient time for their review and consideration. Members of Management are also invited to attend the meetings to present information and/or render clarification when required.

The Board’s responsiveness has allowed Management to manage business and corporate matters effectively. Individual Directors make themselves available and accessible to Management for discussion and consultation outside the formal Board and Board Committees’ meetings.

Senior executives also make presentations on performance of the Group’s various businesses and business strategies at these meetings. These allow the Board to have a good understanding of the Group’s operations and actively engage in robust discussions with the Group’s senior executives.

Directors may request for further explanation, briefings or discussions on any aspect of the Group’s operations or business from Management. As and when required, Board members meet to exchange views outside the formal environment of Board meetings.

Where necessary, critical information is highlighted promptly.

Minutes of all Board Committee meetings are circulated to the Board so that Directors are aware of and kept updated as to the proceedings and matters discussed during such meetings. This will also enable the Directors to weigh in on any key points under consideration.

Where appropriate, Directors may also be invited to attend the Board Committee meetings to deliberate the matter collectively.

Access to Management and Company Secretary

The Board has separate and independent access to Management, the Company Secretary, as well as to the internal and external auditors. The Company Secretary attends all Board and Board Committees meetings and is responsible for ensuring that Board procedures are observed and that applicable rules and regulations are complied with. The appointment and removal of the Company Secretary is a matter for the Board as a whole.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE REPORT

Independence of Director

The NC reviews annually the independence of each Director considering the existence of relationships or circumstances, including those provided in the Code, and considers whether a Director has business relationships with the Group. On the latter, the NC will consider whether such relationship can interfere, or be reasonably perceived to interfere, with the exercise of the Directors' independent judgement. Each Independent Director is required to complete a Confirmation of Independence form based on Principle 2 of the Code for the NC's review and recommendation to the Board.

Each independent Director is required to complete an annual declaration to confirm his/her independence based on the applicable Listing Rules and the guidelines as set out in the Code. For the year under review, the NC examined the relationships that might impair the Directors' independence and is satisfied that all the three independent Directors, namely Dr Tan Boon Wan ("Dr Tan"), Dr Steve Lai Mun Fook ("Dr Lai") and Ms Ong Beng Hong ("Ms Ong"), to be independent. Each of the NC members, abstained from any discussion and voting on his/her independence matter.

Each of Dr Tan, Dr Lai and Ms Ong has also confirmed their independence. Mr Charlie Ng How Kiat is not independent by virtue of him representing the interests of the 5% shareholders (as defined under the Code) of the Company.

The Code stipulates that the independence of any Director who has served on the Board beyond nine years from the date of his first appointment should be subject to particularly rigorous review. At the end of FY2023, the NC noted that Dr Tan has served on the Board beyond nine years from the date of his first appointment. Dr Lai would also have served his nine-year tenure on the Board at the forthcoming Annual General Meeting of the Company.

The dates of initial appointment and last re-election of each Director are set out below:

Dr Tan Boon Wan	Independent Director	5 October 2004	20 April 2022
Dr Steve Lai Mun Fook	Independent Director ¹	28 April 2015	25 April 2023
Ms Ong Beng Hong	Independent Director	1 September 2022	25 April 2023
Mr Charlie Ng How Kiat	Non-Independent Non-Executive Direct	22 November 2012	25 April 2023

Note:

¹ Re-designated as Independent Director with effect from 1 January 2023.

The NC is of the view that in assessing the independence of any Independent Director, one should consider the substance of their professionalism, integrity and objectivity and not merely based on the number of years which they have served on the Board. The rationale for the continuation to serve as an Independent Director is that he/she over time has developed significant insights of the Group's business and operations and can significantly continue to provide noteworthy and valuable contributions to the Board.

The NC noted Dr Tan's long and commendable role on the Board as an Independent Director and as both Chairman of the AC and RC, and a member of the NC in discharging his duties professionally, ethically and with integrity.

As disclosed in the Company's announcement on 29 December 2022, the NC and Board had undertaken a review of Dr Lai's non-independent circumstances when he was appointed as Director on 28 April 2015 and agreed to re-designate Dr Lai to be independent with effect on 1 January 2023.

CORPORATE GOVERNANCE REPORT

For the year under review, the NC had established that each of Dr Tan and Dr Lai is independent of Management and free from any business or other relationship, which could interfere with the exercise of independent judgement or the ability to act in the best interest of the Company and the following factors were evaluated for this purpose:

- a. he is not an executive director of the Company or any related corporation of the Company;
- b. he is not a 5% shareholder of the Company;
- c. he is not a family member of any executive director, officer or 5% shareholder of the Company;
- d. he is not acting as a nominee or representative of any executive director or 5% shareholder of the Company;
- e. he provides and enhances the necessary independence and objectivity of the Board;
- f. he helps to ensure effective checks and balances on the Board;
- g. he helps to mitigate any possible conflict of interests between the policy-making process and the day-to-day management of the Company;
- h. he constructively challenges and contributes to the development of business strategy of the Company; and
- i. he helps to ensure that adequate systems and controls are in place to safeguard the interests of the Company.

The NC having considered the above and rigorously reviewed whether (i) there are relationships or circumstances which are likely to affect, or could appear to affect the judgement and the independence of each of Dr Tan and Dr Lai, and (ii) has noted each of Dr Tan's and Dr Lai's active participation in debating, questioning and evaluating proposals by Management and/or actions to be taken, has determined that each of Dr Tan and Dr Lai has continually demonstrated strong independence in character and judgement over the years and there are no relationships or circumstances which affect or are likely to affect his judgement and ability in discharging his duties and responsibilities as an Independent Director.

The Board is in concurrence with the NC's assessment that each of Dr Tan and Dr Lai has maintained a high standard of conduct, care and duty and has observed the ethical standards and independence. The NC and Board concluded that each of Dr Tan and Dr Lai has at all times demonstrated independence in character and judgement in the best interests of the Company in the discharge of their respective director's duties and affirmed their independence status and should therefore continue to be deemed as Independent Directors. Dr Tan, being a NC member, abstained from any discussion and voting on the matter.

In compliance with the amended Listing Rule 210(5)(d)(iv), which imposed a hard tenure limit for independent Directors of nine years, beyond which such Directors will no longer be considered independent, Dr Tan who is due for retirement for the forthcoming Annual General Meeting ("AGM"), will not seek for re-election. Dr Lai will also accordingly step down from the Board, pursuant to the said listing rule, at the conclusion of the AGM.

Provision 2.4 – Board to determine its appropriate size and Board Diversity

On a yearly basis, the NC reviews the size and composition of the Board to ensure that the size of the Board is conducive for effective discussions and decision-making and that the Board has the appropriate mix of expertise and experience as well as an appropriate balance of Independent Directors.

The Company has a focused board renewal strategy to progressively bring in diversity of skillsets, views and backgrounds in alignment with the growth of the Group. One-third of the Company's directors retires and seeks re-election at every AGM.

CORPORATE GOVERNANCE REPORT

The current Board made up of a team of high caliber leaders whose diverse expertise and experience in accounting & finance, banking, strategic planning, human resource management, business and management, legal and regulatory, industry knowledge combined provides core competencies necessary to lead and govern the Group effectively. The Directors' objective judgement, collective experience and knowledge are invaluable to the Group and allow for the useful exchange of ideas and views.

The NC, with the concurrence of the Board, considers its current board size of five (5) Directors is appropriate for effective decision-making, considering the scope and nature of the Group's businesses and operations.

Board Diversity

The Board has put in place a Board Diversity Policy which endorses the principle that a diverse Board will enhance the decision-making process by utilising a variety of skills, industry and business experience, gender, age and other distinguishing qualities of the members of the Board. In accordance with the Board Diversity Policy, the NC shall strive for the inclusion of diverse groups and viewpoints. The final decision on selection of directors will be based on merit against the objective criteria set and after giving due regard for the benefits of diversity on the Board.

The Board, supported by the NC, on an annual basis, also reviews the Board's diversity, covering aspects ranging from skills, experience, background, gender, age, ethnicity and culture, tenure of service, independence and other competencies and is of the view that the Board provides an appropriate balance and diversity of skills, experience, background, age and knowledge.

Skills and Expertise

Experience / Skill Matrix	No. of Director(s)
Accounting & Finance	3
Business and Management	4
Industry	2
Strategic Planning	4
Human Resource Management	1
Customer-based and marketing	2
Legal and Regulatory	2
Others (i.e: Technology trends, Economic trends & Quality Management)	1

The Board is of the view that it has achieved the skills and expertise diversity in its composition.

Gender Diversity

The NC, with the concurrence of the Board, has agreed to the target of achieving 20% female director on its Board at all times.

With the appointment of Ms Ong Beng Hong to the Board, the Board has achieved its gender diversity target.

CORPORATE GOVERNANCE REPORT

Age Diversity

The Board consists of directors with ages ranging from early 50s to early 70s, who have served on the Board for different tenures. The Board members with their combined business, management and professional experience, knowledge and expertise, provide the core competencies to allow for diverse and objective perspectives on the Group's business and direction.

The NC will continue to review the Board Diversity Policy, as appropriate, to ensure its effectiveness, and will recommend appropriate revisions to the Board for consideration and approval. It will also continue its identification and evaluation of suitable candidates to ensure there is diversity on the Board, taking into account the scope of the Group's businesses and operation.

CHAIRMAN AND THE CHIEF EXECUTIVE OFFICER

PRINCIPLE 3: *There is a clear division of responsibilities between the leadership of the Board and Management, and no one individual has unfettered powers of decision-making.*

Provision 3.1 – Chairman and Chief Executive Officer (“CEO”) should be separate persons

Mr Mak Lye Mun is the Board Chairman and Executive Director of the Company. As the sole Executive Director, Mr Mak oversees the running of the Group's operations. He is further supported by the Chief Operating Officer (“COO”) of the Company and key management of the Group's business units.

Considering the current corporate structure and the scope of the Group's operations, there is no necessity to appoint a Chief Executive Officer (“CEO”). The nature of the Group's business and operations merit the continuity of an Executive Director to provide Independent Directors with the requisite background and knowledge to facilitate their independent judgement and decision-making.

The Board is of the view that there is adequate accountability and transparency within the Group. Given that there is a majority of Independent Non-Executive Directors, the Board is also of the view that there are sufficient safeguards and checks to ensure that the process of decision making by the Board is based on collective decisions without any individual or group of individuals exercising any considerable concentration of power or influence.

CORPORATE GOVERNANCE REPORT

Provision 3.2 – Roles of Chairman and CEO

The Executive Chairman presides over the business of the Board and monitors the translation of the Board's decisions and directions into executive action. In addition, the Executive Chairman provides close oversight, guidance, advice and leadership to the senior management. The Executive Chairman also plays a crucial role in fostering constructive dialogue between shareholders, the Board and Management at the Company's general meetings. The Executive Chairman leads the Company's drive to achieve and maintain a high standard of corporate governance with the full support of the Board, Management and Company Secretary.

The Executive Chairman leads the Board and ensures the effectiveness on all aspects of its role. His responsibilities include, inter alia:

1. constructively determining and approving, with the full Board, the Company's strategic direction;
2. ensuring that the Board is properly organised, functioning effectively and meeting its obligations and responsibilities;
3. ensuring that Directors receive complete, adequate and timely information;
4. fostering effective communication and constructive relations amongst the Directors, within Board Committees, between shareholders, between the Directors and Management;
5. day-to-day running of the Group's business in accordance with the business plans and within approved budgets;
6. developing and proposing the Group's strategies and policies for the Board's consideration;
7. implementing the strategies and policies approved; and
8. overseeing the affairs of the Group in accordance with the policies, practices, procedures and values adopted by the Board.

The Executive Chairman also promotes and instills in the entire leadership team the highest standards of integrity, probity and corporate governance within the Group.

Provision 3.3 – Lead Independent Director

Dr Tan is the Lead Independent Director of the Company.

All Non-Executive Directors, led by the Lead Independent Director, meet regularly with the Executive Director and Management to develop strategies for the Group, review the performance of Management and discuss corporate governance matters. Where warranted, the Non-Executive Directors meet for discussions in the absence of Management. The Lead Independent Director provides feedback to the Board as appropriate.

The Lead Independent Director is available to shareholders where they have concerns and for which contact through the normal channels of communication with the Chairman or Management are inappropriate or inadequate.

CORPORATE GOVERNANCE REPORT

BOARD MEMBERSHIP

PRINCIPLE 4: *The Board has a formal and transparent process for the appointment and re-appointment of directors, taking into account the need for progressive renewal of the Board.*

Provision 4.1 & 4.2 – Composition and Role of Nominating Committee (“NC”)

The NC comprises the following members, all of whom (including the Chairman) are Independent Directors:

Dr Steve Lai Mun Fook (Chairman, Independent Director)
Dr Tan Boon Wan (Lead Independent Director)
Ms Ong Beng Hong (Independent Director)

For the year under review, the NC held one meeting and the NC Chairman reports formally to the Board on its proceedings after its meeting on all matters within its duties and responsibilities.

The NC performs the following functions as provided in its TOR:

1. identifying candidates and reviewing all nominations for the appointment or re-appointment of Directors, the CEO of the Group, and determining the selection criteria;
2. reviewing the independence of each Independent Director annually;
3. deciding whether a Director is able to and has been adequately carrying out his duties as Director of the Company, particularly where the Director has multiple board representations;
4. reviewing the Board structure, size and composition and making recommendations to the Board with regard to any adjustments that are deemed necessary;
5. reviewing Board succession plans for Directors, in particular, the Chairman, the CEO and KMPs;
6. determining how the Board and Board Committees’ performance may be evaluated and proposing objective performance criteria for the Board’s approval;
7. reviewing the training and professional development programmes for the Board;
8. reviewing the Board structure, size, composition and balance and making recommendations to the Board; and
9. the re-election of Director(s) by shareholders under the “retirement by rotation” provisions in the Company’s Constitution having due regards to the composition and progressive renewal of the Board, and the competency, performance and contribution of the Director including his attendance, preparedness and participation at Board and its Board Committees meetings. A Director’s time and effort accorded to the Company’s business and affairs will also be considered.

The NC has reviewed its terms of reference to be in line to the Code and the Listing Rules. Further, the NC has also reviewed the Board Diversity Policy and the progress toward achieving the Board Diversity Policy as described under Provision 2.4.

CORPORATE GOVERNANCE REPORT

Provision 4.4 – NC’s Determination of Independent Director’s Independence

The NC is charged with determining the independence of the directors as set out under Provision 2.1 above as well as the relationships or circumstances which would deem a director not to be independent. The NC had reviewed the independence of Dr Lai, Dr Tan and Ms Ong as described under Principle 2 above.

Provision 4.5 – Board Representations

Where a Director has multiple Board representations, the NC will determine if the Director has been able to devote sufficient time and attention to the Company’s affairs and if he/she has been adequately carrying out his duties as a Director. The recommendation of the NC for the nomination of a Director for re-election is then made to the Board. The Board will review this recommendation.

All Directors are required to declare their Board representations. The NC is of the view that the number of directorships a Director can hold and his/her principal commitments should not be prescriptive as the time commitment for each board membership will vary. The NC also considers both the results of the assessment of the effectiveness of the individual Directors and their actual conduct during Board and Board Committee meetings and ad-hoc discussions and considers the number of listed company board representations which each Director holds on an annual basis or from time to time when the need arises. In this respect, the NC believes that it would not be necessary to prescribe a maximum number of listed company board representations a Director may hold. The Board affirms and supports this view.

During the year, the NC had reviewed the assessment of the individual Director and the directorships and principal commitments disclosed by each Director and was of the view that the existing directorships and principal commitments of the respective Directors do not impede their abilities to discharge their duties to the Company. The Board concurred with the NC.

The table below shows the disclosure of directorships and chairmanships held over the preceding three years in other listed companies as well as other principal commitments of each respective Director:

Name of Director	Past Directorships in other listed companies and principal commitments over the preceding three years	Present Directorships in other listed companies and principal commitments

CORPORATE GOVERNANCE REPORT

Provision 4.3 – Procedure for Selection, Appointment and Re-appointment of Directors

The NC recognises succession planning as an important part of the governance process and reviews succession plans annually to ensure that Board membership is refreshed progressively and in an orderly manner. The NC had put in place a formal process for shortlisting, evaluating and nominating candidates for appointment as new Directors.

When an existing Director chooses to retire or the need for a new Director arises, either to replace a retiring Director or to enhance the Board's composition, the NC, in consultation with Management and the Board, determines the qualifications and expertise required or expected of a new Board member. The NC will also consider the current Board size, structure, composition, diversity of skill, competencies and gender. Prospective candidates are sourced through recommendations from Board members, business associates, advisors, professional bodies and other industry players. These candidates are then reviewed by the NC.

The selection criteria include qualifications, integrity, independence, leadership skills, competencies, industry experience, time commitment, financial literacy and ability to contribute effectively to the Board.

The evaluation process will also involve an interview or meeting with the nominee or candidate. Appropriate background and confidential searches will also be made. Recommendations of the NC are then put to the Board for consideration. Any appointment to Board Committees is reviewed and approved at the same time.

The Company may appoint professional search firms and recruitment consultants to assist in the selection and evaluation process if the appointment involves specific skill sets or industry specialisation.

With two Directors retiring at the forthcoming AGM, the NC had reviewed and recommended two new Directors namely Mr Tan Hup Foi ("Mr Tan") and Mr Soh Chung Hian ("Mr Soh") to the Board for approval. This was part of refreshing the Board which would enable the Board to tap into new external perspectives and insights from new appointees. Mr Tan is an experienced director who is familiar with the running of both the private and public organisations Mr Soh used to be audit partner of the big four audit firms and he continues to lend his expertise and experience in both the private and public sectors. The appointment of both Mr Tan and Mr Soh as Directors of the Company will be effective from 26 April 2024.

In accordance with Regulation 115 of the Company's Constitution, at least one-third of the Directors for the time being shall retire from office by rotation. The retiring Directors are eligible to offer themselves for re-election.

The NC had recommended to the Board that Mr Mak Lye Mun shall retire in accordance with Regulation 115 of the Company's Constitution and be nominated for re-election at the forthcoming AGM. The Board had accepted the NC's recommendation.

Mr Mak Lye Mun had abstained from the discussion and taking a decision in respect of his own nomination.

Dr Tan who is due to retire pursuant to Regulation 115 of the Companies Act, would not seek for re-election at the forthcoming AGM. Dr Tan's term as Independent Director will cease at the conclusion of the Company's AGM.

BOARD PERFORMANCE

PRINCIPLE 5: *The Board undertakes a formal annual assessment of its effectiveness as a whole, and that of each of its board committee and individual directors.*

Provision 5.1 & 5.2 – Assessing the effectiveness of the Board, Board Committees, Individual Director

The Board has established a set of criteria for evaluating the effectiveness of the Board and Board Committees, as well as each individual Director.

CORPORATE GOVERNANCE REPORT

The NC has in place an annual Board Performance Evaluation exercise to evaluate the effectiveness of the Board and facilitate discussion to enable Directors to discharge their duties more effectively. The evaluations are carried out by means of a questionnaire being completed by each Director. The results of the completed questionnaires are collated, and the findings are analysed and discussed by the NC, with comparatives from the previous year's results and reported to the Board.

For FY2023, Directors participated in the evaluation by completing the forms online, providing more efficiency and convenience. The online forms allow the viewing, editing and submission online thus eliminating the need for physical forms to be returned to the Company Secretary for the collation of results. It also ensures accuracy during results extraction and collation by reducing human error.

The availability of the performance evaluation results promptly allows the swift identification of issues and matters that may require the Board's attention and development of action plans to resolve these issues.

The Board performance evaluation exercise in digital format, provides an opportunity to obtain constructive feedback from each Director on whether the Board's procedures and processes had allowed him to discharge his duties effectively. The results of the respective Board Committees and the Board are comprehensively documented and shared amongst the Board Directors upon review by the NC.

Board Evaluation Criteria

The Board evaluation questionnaire takes into consideration qualitative factors such as Board composition, information flow to the Board, Board process, Board accountability, Board diversity, matters relating to review of environmental, social and governance factors matters concerning top management and standards of conduct of Board members. The NC would review the need to set quantitative or qualitative targets for future performance criteria as appropriate.

The performance criteria will not be changed from year to year unless circumstances deem it necessary for any of the criteria to be changed, for example to align with changes to the 2018 Code and listing rules and the onus should be on the entire Board to justify the decision.

Board Committees and Individual Director Evaluation

The NC also has an annual performance evaluation exercise for each of the Board Committees. The performance evaluations of the AC, NC and RC are similarly carried out with questionnaires. The results are collated and compiled by the Company Secretary. The findings with comparatives from the previous year's results are discussed by the NC. Areas of strength or improvements and recommendations, if any, will be reported to the Board. The Board Committees performance evaluation questionnaires take into consideration the extent of how effectively each respective committee has carried out its duties and responsibilities.

The scope of evaluation covers the size, composition, trainings and resources, processes of the Board Committees and their access to information and reference to guidelines as set out in the SID's Board Committees Guide.

Individual Director assessment is also conducted whereby each Director is evaluated on his contributions to the proper guidance, diligent oversight and able leadership, and the support that he/she lends to Management in steering the Group.

The NC was generally satisfied with the FY2023 Board and Board Committees' performance evaluation results. No significant problems were identified. The NC will continue to review the evaluation process from time to time.

The NC is of the view that the primary objective of the assessment exercise is to create a platform to identify the Board Committees' and Board's strengths and make recommendations for improvements to be tabled to the Board for discussion and comment with a view to strengthening and effectiveness of the Board Committees and the Board. The Company has not engaged any external facilitator to conduct the performance evaluation of the Board Committees, Board and individual director. Where relevant and when the need arises, the NC will consider such an engagement.

CORPORATE GOVERNANCE REPORT

Executive Director Evaluation

The NC had also conducted an evaluation of the Company's Executive Director for FY2023. The criteria for the Executive Director evaluation focus on leadership, strategy formulation, strategy execution, financial planning/performance, human resources management/relations and relationship with the Board. The outcome of the evaluation was reported by the NC to the Board. Appropriate feedback to the Executive Director was conveyed by the NC Chairman.

REMUNERATION MATTERS

PRINCIPLE 6: *There should be a formal and transparent procedure for developing policy on executive remuneration and for fixing the remuneration packages of individual directors. No director should be involved in deciding his own remuneration.*

Provision 6.1 & 6.2 – Composition and Role of the Remuneration Committee ("RC")

The RC comprises the following members, two of whom (including the Chairman) are Independent Non-Executive Directors:

Dr Tan Boon Wan (Chairman, Lead Independent Director)
Ms Ong Beng Hong (Independent Director)
Mr Charlie Ng How Kiat (Non-executive Non-Independent Director)

For the year under review, the RC held one meeting and the RC Chairman reported formally to the Board on its proceedings after its meeting on all matters within its duties and responsibilities. Where required, the RC also sets aside time to meet without the presence of Management at RC meeting to discuss matters such as the remuneration of KMP.

The TOR of the RC include:

1. recommending Non-Executive Directors' fees, Executive Director's and CEO's (if any) remuneration to the Board in accordance with the approved remuneration policies and processes of the Company;
2. reviewing service contracts for the Executive Director, CEO and KMP to keep in line with the guidelines on contractual provisions set out in the Code;
3. looking into service contract provisions that allow the Group to reclaim incentive components of remuneration from the Executive Director, CEO (if any) and KMP in exceptional circumstances of misstatement of financial results, or of misconduct resulting in financial loss to the Group;
4. reviewing the remuneration of the top five (5) KMP (who are not Directors) in accordance with the approved remuneration policies and processes of the Company;
5. reviewing the eligibility of the Executive Director, CEO (if any) and KMP for benefits under any long-term incentive schemes;
6. administering the INTRACO Employee Share Option Scheme ("ESOS 2023") and INTRACO Performance Share Plan (the "PSP 2023") and any other share option scheme or share plan established from time to time for the Directors and KMP. More information on the ESOS 2023 and PSP 2023 is set out in the Directors' Statement on pages 83 to 85;
7. reviewing the remuneration packages of employees who are related to any Director, substantial shareholder or the CEO (or executive of equivalent rank); and

CORPORATE GOVERNANCE REPORT

8. ensuring that an appropriate proportion of the remuneration of Executive Directors and KMP are structured so as to link rewards to corporate and individual performance.

For FY2023, the RC had also reviewed its terms of reference to be in line with the Code.

Provision 6.3 – Remuneration Framework

There is a formal and transparent process for developing executive remuneration and for determining the remuneration packages of individual Directors. No Director is involved in determining his own remuneration.

The RC reviews all matters concerning the remuneration of the Directors to ensure that remuneration commensurate with their contributions, responsibilities and market benchmarks.

The annual quantum of Directors' fees to be paid is also reviewed by the RC and the Board before submission to shareholders for approval at the Company's AGM. None of the Non-Executive Directors has service contracts or consultancy arrangements with the Company. They are paid Directors' fees based on a structured fee framework reflecting the responsibilities and time commitment of each Director. The fee framework comprises a base fee, attendance fee and additional fee for holding appointment as Chairman or member of the Board committees. The Executive Director of the Board is not entitled to any attendance fee. For attendance fee, a cap of S\$10,000 for each Director was put in place for FY2023.

The RC also reviews the remuneration packages of the Executive Director and KMP and submits its recommendations to the Board for endorsement. A fundamental element in the remuneration principles is the concept of pay for performance and the RC will look at the total remuneration provided which comprises annual fixed salary and variable salary component. The variable salary component is in the form of variable bonus that is linked to the performance of the Group and the individual's performance.

The RC also reviews the Company's obligations under the service agreements of the Executive Director and KMP that would arise in the event of termination of these service agreements to ensure that such service agreements contain fair and reasonable termination clauses.

The RC sets the remuneration guidelines for the Group for each annual period including annual increments, total incentives for distribution to staff of all grades and structuring long-incentive plans, if applicable.

Provision 6.4 – RC access to expert professional advice

The RC has access to expert professional advice on remuneration matters as and when it deems necessary in framing the remuneration of Directors. The expenses incurred from such advice shall be borne by the Company. For FY2023, no remuneration consultant was appointed to review the remuneration of Directors and KMP.

CORPORATE GOVERNANCE REPORT

LEVEL AND MIX OF REMUNERATION

PRINCIPLE 7: *The level and structure of remuneration of the Board and key management personnel are appropriate and proportionate to the sustained performance and value creation of the company, taking into account the strategic objectives of the company.*

Provision 7.1 & 7.3 – Remuneration of Executive Directors and KMP

In setting remuneration packages, the RC takes into consideration the prevailing market conditions, the pay and employment conditions within the industry and in comparable companies.

The RC reviews the remuneration of Directors and KMP on an annual basis to ensure that it commensurate with their performance, giving due regard to the financial and commercial health and business needs of the Company.

As part of its review, the RC ensures that the performance-related elements of remuneration form an appropriate part of the total remuneration package of the KMP and that each package is designed to align their interests with those of shareholders and link rewards to corporate and individual performance. The RC will review the key performance indicators (“KPIs”) of the KMP and part of the KPIs will be tied to the profitability of the specific business which the individuals are managing.

Performance Based Compensation

The Group adopts a remuneration policy that is performance based for KMP, comprising a fixed component and a variable component. The fixed component is in the form of a base salary and benefits. The variable component is in the form of a variable bonus that is linked to the Company’s and individual performance. The RC also endorses the bonus distribution for KMP based on individual performance and presents its recommendation to the Board for approval.

In determining the fixed and variable component of the remuneration package, Management makes its recommendation to the RC, having regard to the individual KMP’s KPIs, such as (a) profit target; (b) strategic requirements and goals of the Company; (c) investment in future growth; (d) the individual’s contributions to these objectives. The Group rewards KMP with outstanding performance, who have fulfilled their obligations and met their KPIs as well as contributed to the growth and development of the Group.

Long-term Incentive Scheme

The Company has also put in place the ESOS 2023 and PSP 2023 which are long-term employee share incentive plan/scheme to better align the interest of Directors and KMP with that of the Company’s shareholders. See further details on page 69.

The Company will also be renewing its Share Buyback Mandate which provides the Directors with the flexibility to utilise the shares which were purchased or acquired and held as treasury shares for any long-term share incentive schemes to be initiated by the Company as a means to reward and improve the long-term performance of the employees and in turn the Company and Group at large. The Company will utilise treasury shares instead of new issuance of shares as this would provide greater flexibility to manage and minimize the dilution impact (if any) arising from the share incentive schemes.

CORPORATE GOVERNANCE REPORT

Reclaim Incentive Components

The RC and Board are of the view that as the Group pays variable compensation through bonuses based on the actual results of the Group as well as the achievement of KPIs by its KMPs, claw back contractual provisions may not be relevant/applicable. Therefore, there are no contractual provisions which allow the Company to reclaim incentive components of remuneration from the KMP in exceptional circumstances of misstatement of financial results, or of misconduct resulting in financial loss to the Company. The Company should be able to avail itself to remedies against the KMP in the event of such incidents.

Provision 7.2 – Remuneration of Non-Executive Directors

The RC has recommended to the Board a total amount of up to S\$215,000 as Directors' fees for the financial year ending 2024 ("FY2024"), to be paid quarterly in arrears. This would be tabled at the forthcoming AGM for shareholders' approval.

The Board concurred with the RC that the proposed Directors' fees for FY2024 is appropriate and not excessive, taking into consideration the level of contributions by the Directors, their responsibilities and obligations and factors such as efforts and time spent for serving on the Board and Board Committees. The attendance fee component will be removed from the Directors' fees structure with effect from FY2024.

The structure of the Directors' fees is as follows:

	Chairman	Member
Board	S\$60,000	S\$30,000
Audit Committee	S\$20,000	S\$15,000
Nominating Committee	S\$11,250	S\$5,625
Remuneration Committee	S\$11,250	S\$5,625

DISCLOSURE ON REMUNERATION

PRINCIPLE 8: *The Company is transparent on its remuneration policies, level and mix of remuneration, the procedure for setting remuneration, and the relationships between remuneration, performance and value creation.*

Provision 8.1, 8.2 & 8.3 – Remuneration of Directors, CEO and Top Five KMP

Every Non-Executive Director receives a basic fee. In addition, he receives a Chairman's fee if he is the Chairman of the Board, as well as the relevant Board Committee fee (depending on whether he served in the capacity as the Chairman or as a member of the relevant Board Committee) for each position held on a Board Committee. Each Non-Executive Director also receives an attendance fee for each Board meeting, Board Committees' meetings and general meetings. As mentioned above, the attendance fee is capped at S\$10,000 per director for FY2023.

The amounts of Directors' fees have been computed on the basis of the anticipated number of Board and Board Committee meetings for FY2024, assuming attendance by all the Directors at such meetings, and also caters for additional fees (if any) which may be payable due to additional ad-hoc meetings. Additional Directors' fees (if any) over and above the approved Directors fees will only be paid if approved at the next AGM.

Mr Mak Lye Mun ("Mr Mak"), the Executive Director, is on a three-year term with the Company pursuant to his employment contract with the Company dated 7 July 2022 ("Employment Contract").

The Company believes that disclosure of the KMP's remuneration in bands of S\$250,000 should be sufficient to provide an insight into the link between their compensation and performance

CORPORATE GOVERNANCE REPORT

and sufficient for shareholders to have an adequate appreciation of the remuneration of the Company's KMP. The aggregate remuneration paid to the KMP (who are not Directors or CEO of the Company) in FY2023 amounted to S\$1,637,747.

Apart from the above, no termination, retirement and post-employment benefits were granted to the Directors, CEO and the KMPs for FY2023.

INTRACO Employee Share Option Scheme ("ESOS 2023") and INTRACO Performance Share Plan ("PSP 2023")

The Company had on 25 April 2023 adopted the ESOS 2023 and the PSP 2023.

Eligible participants ("the Participants") under the ESOS 2023 will have the opportunity to participate in the equity of the Company, thereby aligning the interests of the Participants with the interests of the Company and the shareholders, motivating them towards the long-term growth and profitability of the Group and better performance through increased dedication and incentives. The ESOS 2023 also enables the Group greater flexibility in structuring compensation packages of eligible Participants so that the Group is able to offer compensation packages that are competitive in order to motivate and retain its employees. The employees of the Group, including Non-Executive Directors, are eligible to participate in the ESOS 2023 Scheme. The ESOS 2023 is administered by the RC. No options were granted under the ESOS 2023 Scheme since its adoption.

The PSP 2023 gives the Group added flexibility in structuring more competitive remuneration packages to award, retain and motivate those executive personnel and Non-Executive Directors (collectively, the "Participant") to successfully manage and guide the Group respectively for the long-term. This is vital to the well-being, sustained performance and value creation of the Group. The PSP 2023 is administered by the RC. When deciding on the number of shares to award to a Participant at any one point in time, the RC will also take into consideration the number of shares to be awarded to that Participant under any other share scheme at that time, if any.

Pursuant to Mr Mak's Employment Contract, subject to his continued employment as the Executive Chairman of the Company, 1,000,000 ordinary shares were awarded to Mr Mak to be vested over a three-year period and release schedule as follows:

- (a) 333,333 Shares shall vest, and be released to Mr Mak Lye Mun, on the first anniversary from the *Date of Grant (the "First Vesting Date");

Save for the aforementioned Award to Mr Mak Lye Mun, no Award under the Plan shall be granted unless the Market Price as at the date of the grant of the Award is at least S\$0.50.

**the date of grant was 28 April 2023 as announced on the same date.*

CORPORATE GOVERNANCE REPORT

Remuneration and Performance

The Company is of the view that the current disclosure provides sufficient overview of the remuneration of the Group while maintaining confidentiality of staff remuneration matters. Annual variable bonuses would be linked to achievement of financial and non-financial key performance indicators such as core values, competencies, key result areas, performance rating, and potential of the employees (including key management). Long-term incentive plans are conditional upon pre-determined performance targets being met and the long-term incentive plans serve to motivate and reward employees and align their interests to maximise long term shareholders' value.

The RC ensures that there is a strong correlation between bonuses payable, and the achievement and performance of the Group and individual staff. The RC also ensures that there is a good balance of short-term and long-term incentive schemes to motivate continuous and sustainable performance.

RISK MANAGEMENT AND INTERNAL CONTROLS

PRINCIPLE 9: *The Board is responsible for the governance of risk and ensures that Management maintains a sound system of risk management and internal controls, to safeguard the interests of the company and its shareholders.*

Provision 9.1 & 9.2 – Design, Implementation and Monitoring of Risk Management and Internal Control Systems

The Board has overall responsibility for the governance of risk and exercises oversight of the material risks in the Group's business. The Board ensures that Management maintains a sound system of internal controls and effective risk management policies to safeguard shareholders' interests and the Group's assets and in this regard, is assisted by the AC which conducts the reviews of the adequacy and effectiveness of the Group's internal controls and risk management systems.

The identification and management of risks are delegated to Management, who assumes ownership and day-to-day management of these risks. Management reports to the AC on the Group's risks profile on a quarterly basis, evaluates results and counter measures to mitigate identified potential risks.

Adequacy and Effectiveness of Risk Management and Internal Control Systems

The Board has adopted an enterprise risk management ("ERM") framework. This risk framework has five (5) principal risk categories, namely strategic, financial, operational, compliance and information technology risks.

The Group's risk management framework is aligned with the Committee of Sponsoring Organisations of the Treadway Commission (COSO) Internal Controls Integrated Framework.

Management is responsible for the effective implementation of the risk management strategy, policies and processes to facilitate the achievement of business plans and goals within the risk tolerance established by the AC and Board. Key business risks are proactively identified, addressed and reviewed on an ongoing basis. Identified risks that affect the achievement of the Group's business objectives are compiled in the Group Risks Register and are ranked according to the likelihood and consequential impact to the Group as a whole.

Risk Management Policies and Processes

The main risks arising from the Group's financial operations are liquidity risk, foreign currency risk, credit risk, equity price risk and interest rate risk. Details on the foregoing are set out in the Notes to the Financial Statements. These risks are monitored by AC and the Board on a quarterly basis.

CORPORATE GOVERNANCE REPORT

The Company's Internal Auditor ("IA") reviews material internal controls as part of the internal audit plan to provide independent assurance to the AC and the Board on the adequacy, effectiveness and integrity of the Group's internal controls and risk management systems.

Adequacy and Effectiveness of Internal Controls

The IA presents his findings to the AC on a quarterly basis. If any non-compliance or internal control weaknesses are noted during the audit, the corresponding recommendations and Management's responses are reported to the AC.

In addition, the external auditors will highlight any material control weakness within the Group discovered in the course of the statutory audit to the AC.

The AC and the Board review the adequacy and effectiveness of the risk management and internal controls system at least annually.

On a half-yearly and annual basis, the CEO and CFO (or equivalent) provide written confirmations ("Management Assurance Letters") to the Board confirming that:

1. the financial records have been properly maintained and the financial statements give a true and fair view of the Company's operations and finances;
2. nothing has come to Management's attention which might render the financial results of the Group as at the end of the financial year to be false or misleading in any material aspect;
3. Management is aware of their responsibilities for establishing, maintaining and evaluating the adequacy and effectiveness of the risk management and internal control systems of the Company; and
4. there are no known significant deficiencies or lapses in the risk management and internal controls systems relating to the Company's financial, operational, compliance and information technology controls which could adversely affect the Company's ability to record, process, summarise or report financial data, or of any fraud, whether material or not.

For FY2023, the Board had received the Management Assurance Letters duly signed by the (i) Executive Director and the Group Financial Controller; and (ii) the Executive Director and other KMP.

Based on the internal controls established and maintained by the Company, work performed by the internal and external auditors, reviews performed by Management and the various Board Committees and the Management Assurance Letters, the Board, with the concurrence of the AC, is of the opinion that the Group's internal controls and risk management systems were adequate and effective as at 31 December 2023 to address financial, operational and compliance risks, including information technology risks, which the Company considers relevant and material to its operations.

The Board is updated quarterly on the Group's financial position and performance with explanations for material variances in financial performance provided. The updates also include key business and operational activities.

While the Board acknowledges that the system of internal controls and risk management established by Management provide reasonable, but not absolute assurance that the Group will not be adversely affected by any event that can be reasonably foreseen as it endeavours to achieve its business objectives, it is also mindful that no system of internal controls and risk management can provide absolute assurance in this regard, or absolute assurance against poor judgement in decision making, human error, fraud or other irregularities.

Accordingly, the Company has complied with Listing Rule 1207(10).

CORPORATE GOVERNANCE REPORT

Separate Risk Committee

The responsibility of overseeing the Company's risk management framework and policies is undertaken by the AC during the year under review.

Management is responsible for the design, execution and reporting of the Enterprise Risk Management. Further, Management is responsible to propose to the AC, mitigation plans to reduce the reported risks.

Management is to report on events that represent new risks to the Company.

The AC is responsible for determining the Group's levels of risk tolerance and risk policies and oversees Management's implementation and monitoring of risk management and internal control systems.

Having considered the Company's business operations as well as its existing internal control and risk management systems, a Group Risk Committee ("GRC") at Management level was set up in 2023. The GRC comprises seven (7) members with five senior management, one finance manager and the internal audit manager. The GRC is accountable to the AC. The GRC regularly reviews the Group's business and operational activities to identify areas of significant business risks as well as appropriate measures to control and mitigate these risks. The GRC reviews all significant control policies and procedures and highlights all significant matters to the AC and Board.

Accountability for Accurate Information

The Board endeavours to ensure that the annual audited financial statements and half-yearly announcements of the Group's results present a balanced and understandable assessment of the Group's position and prospects. The Board embraces openness and transparency in the conduct of the Company's affairs, whilst preserving the commercial interests of the Company. Financial and other price sensitive information are disseminated to shareholders through timely announcements via SGXNet.

The AC and the Board also meet to review and monitor the Group's performance at regular intervals besides the Group's half-yearly and full year financial performance.

Compliance with Legislative and Regulatory Requirements

In line with the requirements of the SGX-ST, negative assurance confirmation statements were issued by the Board to accompany the Group's interim financial results announcements, confirming to the best of the Board's knowledge that nothing had come to the Board's attention which could render the Group's results announcements to be false or misleading in any material aspect. This is in turn supported by a written confirmation from the (i) Executive Director and Group Financial Controller and (ii) the Executive Director and KMPs of all subsidiaries (see explanation under Provision 9.2 above). The Group is not required to issue negative assurance confirmation statements for its full year results announcements.

The Company also completes and submits the compliance checklists to SGX-ST (if applicable) to ensure that all financial results announcements, circulars and letters to shareholders comply with the minimum requirements set out in the listing manual of the SGX-ST.

Management Accounts

Management provides the Board with a continual flow of relevant information on the Group's operational, financial and compliance matters on a timely basis, including quarterly management reports in order that the Board may effectively discharge its duties.

CORPORATE GOVERNANCE REPORT

AUDIT COMMITTEE

PRINCIPLE 10: *The Board has an Audit Committee ("AC") which discharges its duties objectively.*

Provision 10.2 – Composition of the AC

The AC oversees the quality and integrity of the accounting, auditing, internal controls and financial practices of the Group. The AC comprises the following members:

Dr Tan Boon Wan (Chairman, Independent Director)
Dr Steve Lai Mun Fook (Independent Director)
Mr Charlie Ng How Kiat (Non-executive Non-Independent Director)

For the year under review, the AC held four (4) meetings and the AC Chairman reported formally to the Board on its proceedings after each meeting on all matters within its duties and responsibilities. The minutes of the AC meetings are also made available to the Board.

Expertise of AC Members

The Board is of the view that the AC members, having accounting and related financial management expertise and experience, are appropriately qualified to discharge their responsibilities. All members of the AC have many years of experience in senior management positions in both financial and industrial sectors.

Authority of the AC

The AC has explicit authority to investigate any matter relating to the Group's accounting, auditing, internal controls and financial practices brought to its attention with full access to records, resources, and personnel to enable it to discharge its functions properly; and has full access to and cooperation of Management and the discretion to invite any Director or officer to attend its meetings.

Provision 10.1 – Duties of AC and Activities of the AC

The AC is guided by its written Terms of Reference ("TOR"), which set out its authority and duties.

The TOR of the AC include:

1. reviewing the audit plans of the internal and external auditors of the Company, and their reports arising from their audits including Management's response to their letter to Management;
2. reviewing the financial statements of the Company and the consolidated financial statements of the Group;
3. reviewing the balance sheet and profit and loss account of the Company and the consolidated balance sheet and profit and loss account to ensure the integrity of the financial statements and any formal announcements relating to the financial performance of the Company and of the Group; reviewing the half-year and full year results announcements of the Group before submission to the Board for approval;
4. reviewing and reporting the adequacy and effectiveness of material internal controls, including financial, operational, compliance and information technology controls and risk management systems;
5. the cost-effectiveness, independence and objectivity of the external auditors, nature and extent of non-audit services provided and approval of audit and non-audit fees payable to the external auditors. Audit and non-audit fees which comprised corporate tax compliance services paid to the external auditors, BDO LLP, amounted to S\$184,000 and S\$30,000 respectively;

CORPORATE GOVERNANCE REPORT

6. making recommendations to the Board for the appointment or re-appointment of the external auditors of the Company.
7. reviewing interested person transactions (“IPTs”) to ensure that the current procedures for monitoring of IPTs have been complied with and that the IPTs are on normal commercial terms and not prejudicial to the interests of the Company’s minority shareholders;
8. reviewing the scope and results of the internal audit procedures, and the adequacy and effectiveness of the Company’s internal audit function;
9. approving the hiring, removal, evaluation and compensation of the Head of the Internal Audit function, or accounting/auditing firm or corporation if the internal audit function is outsourced;
10. directing Management to report regularly to AC on the Company’s risk profile and the status of risk mitigation action plans; and
11. reviewing the Company’s whistle-blowing policy, and to ensure that arrangements are in place for concerns about possible improprieties in matters of financial reporting or other matters to be raised and independently investigated, and for appropriate follow-up action to be taken.

During FY2023, the AC had carried out the above duties as provided in their TOR. In addition, the AC also assessed and ensured adequate cash flow to sustain the Group’s operations on an on-going basis and assisted the Board to review the Company’s sustainability reporting framework.

For FY2023, the AC had also reviewed its TOR to be in line with the Code.

The external auditors provide regular updates and periodic briefings to the AC on changes or amendments to accounting standards to enable the AC to keep abreast of such changes and their corresponding impact on the financial statements, if any. The AC is entitled to seek clarification from Management, the external auditors and independent professional advisors and to attend relevant seminars at the Company’s expense to apprise themselves of accounting standards/financial updates.

The AC had recommended, and the Board had accepted proposing to shareholders of the Company, the re-appointment of BDO LLP as the independent auditors for the Group in the ensuing year. Save for certain of the Company’s Singapore subsidiaries which have appointed CKS Associates as their auditors, BDO LLP is the auditor of the Company. The Board and AC are satisfied that the appointment of CKS Assurance PAC would not compromise the standard and effectiveness of the audit of the Company. The Company has complied with Listing Rules 712 and 715 (read with 716) of the Listing Manual.

The Group’s subsidiaries disclosed under Notes 5 of the Notes to the Financial Statements on pages 109 to 112 of the Annual Report.

Meeting with External Auditors and Internal Auditors

The AC had met with the internal auditors at least once without the presence of Management. This is part of the routine business of the AC meeting where the internal auditors will report directly to the AC on its internal audit matters.

The AC meets with the external auditors without the presence of Management, at least annually to discuss any issues they may have (including suspected fraud or irregularity, or suspected infringement of any applicable law, rules or regulations, which has or is likely to have a material impact on the Company and Group’s operating results or financial position), and Management’s response thereof.

CORPORATE GOVERNANCE REPORT

Both sets of auditors had confirmed that they had access to and received full co-operation and assistance from Management and no restrictions were placed on the scope of their audit.

Review the Independence of External Auditors

The AC confirms that the Company has complied with Listing Rule 712 in that BDO LLP is registered with the Accounting and Corporate Regulatory Authority (ACRA). The AC is satisfied that the resources and experience of BDO LLP, the audit engagement partner and the team assigned to the audit of the Group were adequate to meet their audit obligations, given the size, nature, operations and complexity of the Group. The AC also reviewed all non-audit services provided by the external auditors and is of the opinion that the nature and provision of such services would not affect the independence and objectivity of the external auditors. The external auditors have confirmed their independence in this respect.

Whistle-blowing Policy

The AC also reviews arrangements by which staff of the Company and external parties may, in confidence, raise concerns about possible improprieties in financial reporting or other matters. The Group has in place a whistle-blowing policy to ensure independent investigations of such matters and for appropriate follow up action. Such concerns include dishonesty, fraudulent acts, corruption, legal breaches and other serious improper conduct; unsafe work practices and any other conduct that may cause financial or non-financial loss to the Group or damage to the Group's reputation.

The policy is aimed at encouraging the reporting of such matters in good faith, with the confidence that staff of the Company and other persons making such reports will be treated fairly and, to the extent possible, protected from reprisal. Complaints or suspicions of impropriety can be made in the form of emails, faxes, letters or written reports. A dedicated email address is maintained by the Company's Internal Audit Department to receive such complaints or reports. Anonymous complaints may be considered, taking into account factors such as the seriousness of the issues raised, the credibility and the likelihood of confirming the allegation from attributable sources.

New employees are briefed on the Whistle-blowing policy during their induction.

The Whistle-blowing Policy as well as whistle-blowing communications channel, have been disseminated to all staff via email and also made available on the Company's internal shared drive for staff reference.

All reported whistle-blowing incidents or concerns will be independently investigated, and remedial actions will be taken to address the whistle-blowing incidents.

The AC reports to the Board any issues/concerns received by it. Where appropriate, the AC and the Board have access to the appropriate external advice where necessary.

Provision 10.3 – Former Partner or Director of the Company's Existing Auditing Firm

The AC does not have any member who is a former partner or Director of the Company's existing audit firm.

Provision 10.4 – Internal Audit

The role of IA is to provide independent and objective assurance that adds value and improves the Group's operations. The IA helps the Group to accomplish its objectives by providing a systematic, disciplined approach to evaluate and improve the effectiveness of internal controls, risk management and governance processes. The IA conducts regular audits of the Group's subsidiaries based on a risk-based audit approach in its audit plan approved by the AC. The IA of the Company reports functionally to the AC Chairman and administratively to the Executive Director. The AC is responsible for the appointment, termination and remuneration of the IA.

CORPORATE GOVERNANCE REPORT

The AC also ensures that the IA function is adequately resourced and has appropriate standing within the Group. The IA has unfettered access to all the Group’s documents, records, properties and personnel and direct access to the AC.

The role of the IA is to support the AC in ensuring that the Group maintains a sound system of internal controls by highlighting any weaknesses in the current process, ascertaining that operations were conducted in accordance with established policies and procedures, and identifying areas for improvement where controls can be strengthened.

The IA has the relevant qualifications and experience in internal audit to discharge his duties effectively. The International Standards for the Professional Practice of Internal Auditing of the Institute of Internal Auditors (the IIA Standards) laid down in the International Professional Practices Framework are used as a reference and guide by the Company’s IA. The Company’s IA has confirmed to the AC that he is in compliance with the IIA Standards.

The IA adopts a risk-based approach in formulating the annual plan. The AC approves the IA Plan annually and reviews the adequacy and effectiveness of the internal audit function. Reports prepared by the IA are reviewed by the AC on a quarterly basis. The AC assesses the adequacy and effectiveness of the IA function and ensures that the IA has direct and unrestricted access to the AC Chairman. Management also helps the AC to assess the adequacy and effectiveness of the IA function through completing a questionnaire and discussing their evaluation with the AC.

During FY2023, the IA completed its internal audit review of the Group on key processes in treasury, operations, finance, regulatory compliance, information technology and sustainability reporting process. The findings and recommendations of the IA, Management’s responses and implementations have been reviewed and approved by the AC.

For FY2023, the AC and Management reviewed the IA’s effectiveness and adequacy by completing a questionnaire evaluating the IA’s standing within the Company, resources in the IA department and the effectiveness and adequacy of the internal process based on the nature and extent of the Group’s operations.

Pursuant to Rule 1207(10C) of the Listing Manual, the AC had assessed and is satisfied with the adequacy, effectiveness, independence, scope and results of the Company’s internal audit function.

KEY AUDIT MATTER

In the review of the financial statements, the AC had discussed with Management the accounting principles that were applied and their judgement of items that might affect the integrity of the financial statements and considered the clarity of key disclosures in the financial statements. The AC reviewed, amongst other matters, the following key audit matter reported by external auditors for FY2023.

Key Audit Matter	How these issues were addressed by AC
The measurement of revenue in the construction contracts	<p>The AC considered the findings of the external auditors that there were no identified deviations in operating effectiveness of controls applied by the Group over revenue from construction contracts. The estimates applied for recognition of construction contracts revenue were found to be reasonable and that there were no material variance identified.</p> <p>The AC was satisfied with the accounting of the Group’s revenue.</p>

CORPORATE GOVERNANCE REPORT

SHAREHOLDER RIGHTS AND CONDUCT OF GENERAL MEETINGS

PRINCIPLE 11: *The company treats all shareholders fairly and equitably in order to enable them to exercise shareholders' rights and have the opportunity to communicate their views on matters affecting the company. The company gives shareholders a balanced and understandable assessment of its performance, position and prospects.*

Provision 11.1 – Participation of Shareholders at General Meetings

The Company welcomes the views of shareholders on matters concerning the Company and encourages shareholders' participation at shareholders' meetings. All shareholders are entitled to attend the general meetings and are given ample opportunity and time to participate effectively and vote at the meetings.

Shareholders are welcomed to communicate their views on matters relating to the Group with the Board and the Chairman of the Board Committees and the external auditors of the Company in attendance. Shareholders are informed of the rules, including voting procedures that govern the general meetings. The Company's Constitution allows a shareholder to appoint up to two (2) proxies to attend and vote on behalf of the shareholders.

Specified intermediaries, such as banks and capital markets service licence holders which provide custodial services, may appoint more than two proxies. This will enable indirect investors, including CPF investors, to be appointed as proxies to participate in shareholders' meetings. Such indirect investors, where so appointed, will have the same rights as direct investors to vote at shareholders' meetings.

Provision 11.2 – Separate Resolutions at General Meetings on Each Substantially Separate Issue

The Company does not practise bundling of resolutions at general meetings. Each distinct issue is proposed as a separate resolution and full information is provided for each item in the agenda for the meetings.

All resolutions proposed at the general meeting are conducted by way of poll voting. A scrutineer is appointed to count and validate the votes cast at the meeting. The total number of votes cast, for or against, and the respective percentages, in respect of each resolution are tallied and announced at the meeting. The detailed voting results will also be announced to SGX-ST via SGXNet on the same day after the conclusion of the meetings. Shareholders who are present in person or represented by proxies will be entitled to one vote for each share held.

Provision 11.3 – Attendance at General Meetings

All Directors, including the Chairman of the Board and the respective Chairman of the AC, NC and RC, as well as external auditors are present at general meetings to address shareholders' queries. Management is also present at general meetings to respond, if necessary, to operational questions from shareholders that may be raised.

An independent external party is appointed as scrutineer for the poll voting process. It is the role of the scrutineer to review the proxies and the poll voting system, as well as attend to the proxy verification process to ensure that the poll voting information is compiled correctly. All of the Company's resolutions are voted on via a poll.

At the general meetings, the voting results for each resolution are disclosed to shareholders. When voting for a resolution has concluded, the poll voting results including the number and percentage of votes cast (both for and against the resolution) are immediately made known to shareholders. The poll voting and proxy voting results are promptly released to the SGX-ST via SGXNet.

CORPORATE GOVERNANCE REPORT

Provision 11.4 – Absentia Voting

If any shareholder is unable to attend a shareholders' meeting, he/she is allowed to appoint up to two proxies to vote on his/her behalf at the meeting through proxy forms which are sent together with the Annual Reports or Circulars (as the case may be).

As the authentication of shareholder identity information and other related security issues still remain a concern, the Company has decided, for the time being, not to implement voting in absentia by mail, email or fax.

Provision 11.5 – Minutes of General Meetings

The Company prepares minutes of general meetings which include substantial and relevant comments or queries from shareholders, and responses from Board and Management. Minutes of general meetings will be published within one month after the meeting on the SGX-ST and the Company's corporate website.

Provision 11.6 – Dividend Policy

The Company does not have a formal dividend policy. The Company targets to provide sustainable dividend payouts that consider the Group's profit growth, cash position, positive cash generated from operations, projected capital requirements for business growth and other factors as the Board may deem appropriate. The released announcements are then posted on its corporate website at www.intraco.com to allow shareholders, investors and members of the public to keep abreast of development in the Group's business and activities. Where there is inadvertent disclosure made to a select group, the Company will make the same disclosure publicly to all others as soon as possible.

The Company does not practise selective disclosure. Price-sensitive information is publicly released, financial results and annual reports/circulars are announced to the SGX-ST via SGXNET on a timely basis and are available on the Company's website. Prior to the release of the Company's half year and full year results, the Company will also make an announcement informing shareholders of the Company the date of releasing its half year and full year results.

Shareholders of the Company can download the Company's annual report/circular and notice of AGM/EGM from the Company's website or SGXNet. These notices are also advertised in the newspaper.

CORPORATE GOVERNANCE REPORT

Provision 12.2 & 12.3 – Investor Relations Policy

PRINCIPLE 13: *The Board adopts an inclusive approach by considering and balancing the needs and interests of material stakeholders, as part of its overall responsibility to ensure that the best interests of the company are served.*

The Group's stakeholders play a crucial role in our business. Intraco's vision and the success of its business is closely aligned with the interests and needs of its key stakeholders. Effective stakeholder engagement can help the Group to better understand the needs of its key stakeholders and incorporate these into its corporate strategy.

The Group has identified 5 key stakeholder groups based on their relevance and influence to Intraco's business. They include customers, suppliers, employees, investors and regulators. The Group engages with these stakeholders through various informal and formal channels of communication to learn and understand their concerns. For example, the Group maintains a corporate website to leverage on internet platforms, which enables it to communicate with key stakeholders and the public.

The other sections of the annual report set out the Group's strategy (for more information, please refer to Chairman's Statement) and key areas of focus in managing stakeholder relationships (for more information, please refer to the Company's Sustainability Report).

CONDUCT AND ETHICS POLICY

All employees are required to observe and maintain high standards of integrity, as well as comply with laws, regulations and Company's policies. Directors and the CEO are also required to notify their dealings in the Company's securities within 2 business days.

CORPORATE GOVERNANCE REPORT

The Company will be seeking a renewal of its Share Buyback Mandate at the upcoming AGM. In connection with the Share Buyback Mandate, the Company has also put in place a Share Buyback Policy. The Company confirmed that it has adhered to its policy for securities transactions for FY2023.

INTERESTED PERSON TRANSACTIONS (“IPT”) (LISTING RULE 907)

The Company has in place internal procedures written in the approved IPT policy and procedure to ensure that all transactions with interested persons are reported to AC in a timely manner, and an IPT register is maintained by the Company’s IA. IA will compile and submit to AC a full listing of IPTs including those less than \$100,000 and their aggregate including cases of non-compliance on a quarterly basis. Where an IPT or its aggregate reaches 3% of the Group’s latest audited net tangible assets, an immediate announcement is made after the AC’s review and approval. Where an IPT or its aggregate reaches 5% of the Group’s latest audited net tangible assets, Shareholders’ approval will be sought through a general meeting, while the interested Shareholder (and any associate) will abstain from voting. INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF INTRACO LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Intraco Limited (the "Company") and its subsidiaries (the "Group") set out on pages 92 to 149, which comprise:

- the consolidated statement of financial position of the Group and the statement of financial position of the Company as at 31 December 2023;
- the consolidated statement of comprehensive income, consolidated statement of changes in equity, and consolidated statement of cash flows of the Group for the financial year then ended; and
- notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements of the Group and the statement of financial position of the Company are properly drawn up in accordance with the provisions of the Companies Act 1967 (the "Act") and Singapore Financial Reporting Standards (International) ("SFRS(I)s") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 31 December 2023, and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group for the financial year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority ("ACRA") Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF INTRACO LIMITED

Key Audit Matters (Continued)

Revenue recognition from construction contracts

The Group's revenue from construction contracts is from the fire protection segment and is recognised over time. The amount of revenue from construction contracts is recognised by reference to the proportion of contract cost incurred to date to the total estimated contract cost, towards the satisfaction of a performance obligation ("input method").

Significant assumptions are used by management to estimate the total contract costs to complete which affect the accuracy of revenue recognition based on the input method and adequacy of provision for onerous contract recognised. We have determined the revenue recognition from construction contract as a key audit matter due to significant management judgement and estimate involved to determine the total cost to complete as well as provision for onerous contract.

Related Disclosures

Refer to Note 2.1 and 17 of the accompanying financial statements.

Audit Response

Our procedures included, amongst others, the following:

- Evaluated the design and implementation of relevant key controls over the preparation and determination of total budgeted cost, total contract sum and actual costs.
- Compared total contract revenue to actual cost incurred plus expected cost to complete to satisfy the performance obligations and checked the arithmetical accuracy of the revenue recognised during the year.
- Performed retrospective review by comparing the total actual cost incurred at completion against the budgeted cost to assess the reasonableness of management's estimates for a sample of completed projects during the year.
- For a selection of projects in progress at the end of the financial year, we assessed management's assumptions on costs to complete the projects and vouched to cost incurred to date.
- Agreed significant contract sums to contracts entered into and variation orders of contracts, where applicable.
- Reviewed management's identification of loss-making contracts and assessed adequacy of provision for onerous contracts.
- Evaluated the adequacy of the related disclosures in the financial statements.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and SFRS(I)s, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF INTRACO LIMITED

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- (d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- (f) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

NOTES TO FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023

These notes form an integral part of and should be read in conjunction with the financial statements.

1. General corporate information

Intraco Limited (the "Company") is incorporated in the Republic of Singapore. The address of the Company's registered office is 60 Albert Street, #07-01 OG Albert Complex, Singapore 189969. The Company is listed on the Singapore Exchange Securities Trading Limited ("SGX-ST").

The financial statements of the Group as at and for the year ended 31 December 2023 comprise the Company and its subsidiaries (together referred to as the "Group" and individually as "Group entities") and the Group's interest in equity-accounted investees.

The principal activity of the Company is that of investment holding. The Group is primarily involved in the trading and distribution of plastics resin and liquors, providing passive fire protection products and services, provision of mobile radio infrastructure management services and corporate advisory services related to digital assets (Note 5).

2. Material accounting policy information

2.1 Basis of preparation

The financial statements have been prepared in accordance with Singapore Financial Reporting Standards (International) ("SFRS(I)") under the historical cost convention, except as disclosed in the accounting policies below.

The financial statements are presented in Singapore dollar which is the functional currency and presentation currency of the Company. The financial statements are expressed in Singapore dollar and all values are rounded to the nearest thousand (\$'000) unless otherwise indicated.

The preparation of financial statements in compliance with SFRS(I)s requires management to make judgements, estimates and assumptions that affect the Group's application of accounting policies and reported amounts of assets, liabilities, revenue and expenses. Although these estimates are based on management's best knowledge of current events and actions, actual results may differ from those estimates. Estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are summarised below and detailed disclosures are included in the respective notes to the financial statements.

Significant accounting estimates and assumptions used:

- Note 17: Revenue recognition and contract cost from construction contracts: revenue is recognised over time, whereby the revenue is recognised by reference to the proportion of contract costs incurred to date to the estimated total contract costs ("input method"). Significant assumptions are used to estimate the total contract costs which affect the accuracy of revenue recognition based on the input method.
- Note 8 and Note 9: Credit loss for trade receivables and contract assets: management determines the expected loss arising from default of trade receivables and contract assets, by categorising them based on its historical loss pattern, historical payment profile, geographical risk as well as credit risk profile of customer.

Measurement of fair values

The Group has an established control framework with respect to the measurement of fair values. The Group Financial Controller has overall responsibility for all significant fair value measurements, including Level 3 fair values, where applicable.

The Group Financial Controller regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values to support the conclusion that these valuations meet the requirements of SFRS(I), including the level in the fair value hierarchy, the resulting fair value estimate should be classified.

Significant valuation issues are reported to the Group's Audit Committee.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement (with Level 3 being the lowest).

The Group recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in Note 25 – Financial Instruments.

Changes in accounting policies

New standards, amendments and interpretations effective from 1 January 2023

On 1 January 2023, the Group adopted the new or amended SFRSs and interpretations to SFRSs that are mandatory for application for the financial year. The adoption of these standards did not result in significant changes to the Group's accounting policies and has no material impact to the Group's financial statements, except as disclosed below.

Changes in accounting policies (Continued)

New standards, amendments and interpretations effective from 1 January 2023 (Continued)

Amendments to SFRS(I) 1 Presentation of Financial Statements: Disclosure of Accounting Policies and SFRS(I) Practice Statement 2

The amendments change the disclosure requirements with respect to accounting policies from 'significant accounting policies' to 'material accounting policy information'. The amendments provide guidance on when accounting policy is likely to be considered material.

Management followed the guidance in the amendments to SFRS(I) 1 and SFRS(I) Practice Statement 2 in determining which accounting policy information is material. For the preparation of financial statements for the financial year ended 31 December 2023, the material accounting policy information has been included in the respective notes to the financial statements.

New standards, amendments and interpretations issued but not yet effective

There are a number of standards, amendments to standards, and interpretations, that are effective in future accounting periods and the Group has not decided to early adopt. The Group does not expect any of these standards upon adoption will have a material impact to the Group.

2.2 Basis of consolidation

(i) **Business combinations**

The Group accounts for business combinations using the acquisition method when the acquired set of activities and assets meets the definition of a business and control is transferred to the Group (Note 2.2(ii)). In determining whether a particular set of activities and assets is a business, the Group assesses whether the set of assets and activities acquired includes, at a minimum, an input and substantive process and whether the acquired set has the ability to produce outputs.

The Group has an option to apply a 'concentration test' that permits a simplified assessment of whether an acquired set of activities and assets is not a business. The optional concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets.

The Group measures goodwill at the date of acquisition as:

- the fair value of the consideration transferred; plus
- the recognised amount of any non-controlling interest ("NCI") in the acquiree; plus
- if the business combination is achieved in stages, the fair value of the pre-existing equity interest in the acquiree,

over the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed. Any goodwill that arises is tested annually for impairment.

NOTES TO FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023

2. Material accounting policy information (Continued)

2.2 Basis of consolidation (Continued)

(i) Business combinations (Continued)

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Any contingent consideration payable is recognised at fair value at the date of acquisition and included in the consideration transferred. If the contingent consideration that meets the definition of a financial instrument is classified as equity, it is not remeasured and settlement is accounted for within equity. Otherwise, other contingent consideration is remeasured at fair value at each reporting date and subsequent changes to the fair value of the contingent consideration are recognised in profit or loss.

When share-based payment awards (replacement awards) are exchanged for awards held by the acquiree's employees (acquiree's awards) and relate to past services, then all or a portion of the amount of the acquirer's replacement awards is included in measuring the consideration transferred in the business combination. This determination is based on the market-based value of the replacement awards compared with the market-based value of the acquiree's awards and the extent to which the replacement awards relate to past and/or future service.

NCI that are present ownership interests and entitle their holders to a proportionate share of the acquiree's net assets in the event of liquidation are measured either at fair value or at the NCI's proportionate share of the recognised amounts of the acquiree's identifiable net assets, at the date of acquisition. The measurement basis taken is elected on a transaction-by-transaction basis. All other NCI are measured at acquisition-date fair value, unless another measurement basis is required by SFRS(I)s.

Costs related to the acquisition, other than those associated with the issue of debt or equity investments, that the Group incurs in connection with a business combination are expensed as incurred.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as transactions with owners in their capacity as owners and therefore no adjustments are made to goodwill and no gain or loss is recognised in profit or loss. Adjustments to NCI arising from transactions that do not involve the loss of control are based on a proportionate amount of the net assets of the subsidiary.

NOTES TO FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023

2. Material accounting policy information (Continued)

2.2 Basis of consolidation (Continued)

(ii) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Group. Losses applicable to the NCI in a subsidiary are allocated to the NCI even if doing so causes the NCI to have a deficit balance.

(iii) Loss of control

Upon the loss of control, the Group derecognises the assets and liabilities of the subsidiary, any NCI and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost.

(iv) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(v) Subsidiaries in the separate financial statements

The subsidiaries are classified as equity investments at fair value through other comprehensive income ("FVOCI"). Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

2.3 Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are reviewed regularly by the Executive Chairman and Director (the chief operating decision maker) to make decisions about resources to be allocated to the segment and to assess its performance, and for which discrete financial information is available.

Segment results that are reported to the Executive Chairman and Director include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets (primarily the Company's headquarters), head office expenses, and tax assets and liabilities.

Segment capital expenditure is the total cost incurred during the year to acquire property, plant and equipment, and intangible assets other than goodwill.

NOTES TO FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023

17. Revenue (Continued)

The following table provides information about the nature and timing of the satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies: (Continued)

Construction contracts

Nature of goods or services	The fire protection segment of the Group manufactures and installs products for its customers. These products are constructed based on specifically negotiated contracts with customers.
When revenue is recognised	The Group has assessed that these construction contracts qualify for over time revenue recognition as the fire protection products have no alternative use for the Group due to contractual restrictions, and the Group generally has enforceable rights to payment for performance completed till date. The stage of completion is assessed by reference to the contract costs incurred till date in proportion to the total estimated contract costs of each contract.
Significant payment terms	Progress billings to the customer are based on a payment schedule in the contract that is dependent on the achievement of specified construction milestones. If the value of the construction services rendered exceeds payments received from the customer, a contract asset is recognised. The Company recorded part of the contract sums to be collected upon end of defect liability period as retention receivables.

Significant judgement is used to estimate these total contract costs to be incurred to fulfil the contract and cost incurred to-date. In making these estimates, management has relied on past experience of completed projects and quantity surveyors' reports to collaborate the progress of the construction.

Service income

Nature of goods or services	The Group generates revenue from the provision of radio coverage system management, operation and mobile service and supply of communication equipment to other service providers.
When revenue is recognised	Revenue is recognised when the relevant services are rendered.
Significant payment terms	Billings to the customer are based on a schedule in the contract that is dependent on the achievement of specified service milestones.

The Group recognises lease payments under operating leases as income on a straight-line basis over the lease term unless another systematic basis is more representative of the pattern in which benefit from the use of the underlying asset is diminished. The lease payment recognised is included as part of "Rental income". Initial direct cost incurred in negotiating and arranging an operating lease are added to the carrying amount of the underlying asset and recognised as expense over the lease term on the same basis as lease income. The Group recognised the advances from customer in relation to the lease income as "advances from customers".

In the current financial year, the potential ordinary shares which are the 4,000,000 warrants, have not been included in the computation of diluted earnings per share as the exercise price of these warrants is higher than the average market price during the year. In the previous financial year, the warrants have not been included in the computation of diluted loss per share as they were antidilutive.

There were no dilutive potential ordinary shares in issue during the year.

24. Operating segments

The Group has the following three strategic business units which are its reportable segments, as described below. The strategic business units offer different products and services, and are managed separately because they require different technology and marketing strategies. For each of the strategic business units, the Executive Chairman and Director (the chief operating decision maker) reviews internal management reports on a monthly basis. The following summary describes the operations in each of the Group's reportable segments:

- *Trading and Distribution* Trading in industrial materials which include plastics resin and liquors.
- *Fire Protection* Provision of passive fire protection products and services.
- *Mobile Radio Infrastructure Management and Corporate Advisory Services* Provision of mobile radio infrastructure management services and provision of corporate advisory services related to digital assets.

The Company's assets and liabilities are not allocated to the reporting segments as they are not included in the measure of the segments' profit that is used by the chief operating decision-maker for assessment of segment performance.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before tax, as included in the internal management reports that are reviewed by the Executive Chairman and Director. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Inter-segment pricing is determined on an arm's length basis.

Geographical information

The Group's business is managed primarily in Singapore, Vietnam, Indonesia and others.

In presenting information on the basis of geographical segments, segment revenue is based on the geographical location of customers and segment assets are based on the geographical location of the assets.

Financial risk management

Overview

The Group has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- market risk

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, and policies and processes for measuring and managing risk, and the Group's management of capital.

Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board ensures that management maintains a sound system of internal controls and effective risk management policies to safeguard shareholders' interests and the Group's assets and in this regard, is associated by the audit committee which conducts the reviews of the adequacy and effectiveness of the Group's internal controls and risk management systems.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investment securities.

The carrying amounts of financial assets in the statements of financial position represent the Group and the Company's maximum exposure to credit risk, before taking into account any collateral. The Group and the Company do not hold any collateral in respect of their financial assets.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the demographics of the Group's customer base, including the default risk associated with the industry and country in which customers operate, as these factors may have an influence on credit risk. Details of concentration of revenue are included in Note 24.

NOTES TO FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023

25. Financial instruments (Continued)

Credit risk (Continued)

Management has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. The Group's review includes external ratings, if they are available, financial statements, credit agency information, industry information, and in some cases bank references. These limits are reviewed on an ongoing basis. Customers failing to meet the Group's benchmark creditworthiness may transact with the Group only on a prepayment/cash basis.

The Group limits its exposure to credit risk from trade receivables by establishing maximum payment periods of one and three months for individual and corporate customers respectively.

The Group does not require collateral in respect of trade receivables. The Group does not have trade receivables and contract assets for which loss allowance is recognised because of collateral.

Exposure to credit risk

Trade and other receivables and contract assets

The Group's primary exposure to credit risk arises through its trade and other receivables* and contract assets. Concentration of credit risk relating to trade and other receivables* and contract assets is limited due to the Group's many varied customers. These customers are regionally dispersed. Other than the allowance of S\$412,000 (2022: S\$491,000) made in relation to the trade receivables and contract asset of the Fire Protection segment in view of the challenging conditions faced by the construction industry, the Group's historical experience in the collections of trade and other receivables* in other segment falls within the recorded allowances. Due to these factors, management believes that no additional credit risk beyond the amounts provided for collection is inherent in the Group and the Company's trade and other receivables* and contract assets.

In 2023, reversal of allowance for impairment loss on trade receivables of S\$3,838,000 (2022: Nil) was made due to expected recovery of a trade receivable, which was previously provided for by the Company in the financial years ended 31 December 2009 to 31 December 2011 relating to the trading and distribution business. Due to the weakening of the currency of Myanmar against the US dollar, allowance of S\$242,000 was made for the amount due from shareholder as of 31 December 2023. During the financial year, the Group recorded a net reversal of allowance for impairment loss on trade and other receivables and contract assets of S\$3,184,000 (2022: S\$491,000).

The exposure to credit risk for trade and other receivables* and contract assets at the reporting date (by operating segments) was:

	Group		Company

Trade and other receivables and contract assets (Continued)

The Group's most significant customer, a trading customer, accounts for S\$2,394,000 (2022: S\$1,101,000) of the trade and other receivables* as at 31 December 2023. There is no concentration of customer risk at the Company level. The Company held receivables from its subsidiaries amounting to S\$4,930,000 as at 31 December 2023 (2022: S\$21,594,000). Impairment on these balances has been measured on the 12-month expected loss basis which reflects the low credit risk of the exposures. The amount of the allowance on these balances is negligible.

* Exclude advances to suppliers and prepayments.

The ageing of the Group's and Company's trade and other receivables* and contract assets and summary of exposure to credit risk at the reporting date was as follows:

Credit risk (Continued)

Exposure to credit risk (Continued)

Trade and other receivables and contract assets (Continued)

The credit quality trade and other receivables* and contract asset is assessed based on credit policies established by the management. The Group monitors customer credit risk by grouping trade and other receivables and contract asset based on their characteristics. Trade and other receivables* with high credit risk will be identified and monitored by the respective strategic business units. The Group assesses that no allowance for impairment loss on trade and other receivables* and contract assets is required, except for the amounts for which allowance were made for trade receivables and contract asset from construction sector due to slow recovery in the sector. The movement in impairment loss in respect of trade and other receivables and contract asset during the year was as follows:

	Group		Company	
	2023 S\$'000	2022 S\$'000	2023 S\$'000	2022 S\$'000
Lifetime ECL				
At 1 January	7,050	6,586	3,608	3,626
Allowance for impairment loss on trade receivables and contract asset	654	492	242	-
Receivable written off as uncollectible	(2,598)	(80)	(3,576)	-

Effects of movements in exchange rates	(66)	52	(32)	(18)
At 31 December	1,202	7,050	242	3,608

* Exclude advances to suppliers and prepayments.

The reversal of allowance arose from the expected recovery of certain trade receivables which was previously provided for by the Company in the financial years ended 31 December 2009 to 31 December 2011. The net amount of S\$3.8 million was estimated assuming after any payments of tax by the liquidator.

Based on the Group's monitoring of credit risk, the Group believes that apart from the above, no additional allowance is necessary.

Cash and bank balances

The Group and the Company held cash and bank balances of S\$29,606,000 and S\$19,518,000 (2022: S\$17,852,000 and S\$10,630,000) respectively as at 31 December 2023 and these amounts represent their maximum credit exposures on these assets. The bank balances are held with bank and financial institution counterparties, which are rated Ba3 to Aa1, based on Moody's ratings.

Impairment on cash at bank has been measured on the 12-month expected loss basis and reflects the short maturities of the exposures. The Group considers that its cash at bank have low credit risk based on the external credit ratings of the counterparties. The amount of the allowance on cash at bank was negligible.

Liquidity risk

Risk management policy

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group monitors its liquidity risk and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and to mitigate the effects of fluctuations in cash flows. Typically, the Group ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 60 days, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot be reasonably predicted, such as natural disasters.

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements:

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk.

Interest rate risk

The Group's exposure to changes in interest rates relates primarily to the Group's interest-earning financial assets and interest-bearing financial liabilities. Interest rate is managed by the Group on an ongoing basis with the primary objective of limiting the extent to which net interest expense could be affected by an adverse movement in interest rates.

The Group adopts a policy of constantly monitoring movements in interest rates. Presently the Group does not use derivative financial instruments to hedge its interest rate risk.

Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points (bp) in interest rates at the reporting date would have increased/(decreased) loss before tax by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for 2022.

	Group		Company	
	100 bp increase S\$'000	100 bp decrease S\$'000	100 bp increase S\$'000	100 bp decrease S\$'000

Other market price risk

Market price risk arises from financial assets measured at FVTPL. The primary goal of the Group's investment strategy is to maximise investment returns, in general. Management is assisted by external advisors in this regard. Investments are designated as at FVTPL because their performance is actively monitored and they are managed on a fair value basis.

A change of 1% in prices for financial assets measured at FVTPL at the reporting date would have (decreased)/increased the Group's and the Company's profit/(loss) before tax by the amounts shown below. This analysis assumes that all variables remain constant.

There is no formal hedging policy with respect to foreign exchange exposure. Exposure to currency risk is monitored on an ongoing basis and the Group endeavours to keep the net exposure at an acceptable level.

Sensitivity analysis

A weakening of 10% (2022: 10%) in the relevant foreign currency against the functional currency of each of the Group entities at 31 December would have increased profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Group considered to be reasonably possible at the end of the financial year. The analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for 2022.

	Group Profit or loss		Company Profit or loss	
	2023 S\$'000	2022 S\$'000	2023 S\$'000	2022 S\$'000
US dollar	(63)	(150)	(51)	(139)
Singapore dollar	(423)	(69)	-	-

A 10% (2022: 10%) strengthening of the above currency against the functional currency of each of the Group entities at 31 December would have the equal but opposite effect to the amounts shown above, on the basis that all other variables remain constant.

Capital management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Capital consists of share capital. The Board of Directors monitors the return on capital, which the Group defines as net operating income divided by total shareholders' equity.

The Board seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position.

There were no changes in the Group's approach to capital management during the year.

Neither the Company nor any of its subsidiaries are subject to externally imposed capital requirements.
